

DRAFT DRAWING TO BE HELD TODAY

PLANS FOR LOTTERY MATERIALLY CHANGED

OFFICIALS ABANDON INTRICATE METHOD OF DOUBLE DRAWING

Change Will Make It Necessary to Draw, One at a Time, at Least 10,263 Numbers—Process Will Begin at 8:30 This Morning, Central Time, and Will Require at Least Ten and One Half Hours.

WASHINGTON, July 19.—Plans for the drawing which will be held tomorrow to fix the order of military liability for nearly 10,000,000 registered men thruout the country were materially changed late today and the intricate method of double drawing, worked out by officials to lessen the physical task, was abandoned.

Instead of a process requiring not more than an hour and involving one set of numbers from one to one thousand and another from 0 to 10, it will be necessary to draw, one at a time, at least 10,263 numbers. Probably, to make certain that every registrant in the largest district is placed, 10,500 drawings will be made. It will require at least ten and a half hours and officials in charge believe it will take twelve. The process will begin at 9:30 a. m.

The numbers will be publicly announced by telegraphing to the newspapers over the country as fast as they are drawn. General Crowder at first considered a plan under which they would have been held in confidence for publication everywhere Saturday morning but that suggestion was abandoned late tonight.

Following is Provost Marshal General Crowder's explanation of the sudden abandonment of the double drawing plan which it had taken weeks to work out in detail and which was made public only a few hours before it was discarded:

General Crowder's Explanation
"Advices received by long distance telephone this afternoon indicate that in certain areas the boards, in numbering registration cards have kept the cards segregated by election districts and that serial numbers have been assigned to the whole group for a board while the cards were thus segregated. If the drawing is conducted as originally planned in groups of 1,000 the result will be that considerable proportions of certain election districts will be brought up for examination together. "The only change in the plan will be that there will be one drawing instead of two. "The advantage will be greater simplicity. The disadvantage will be that the drawing will require ten hours to complete."

Setting is Not Changed
The setting for the great lottery has not been changed. It will take place in the public hearing room of the senate office building. The invited guests will sit with Secretary Baker of the war department to watch the proceedings will be members of the senate and house military committees. The only other persons present according to plans tonight, will be a limited number of newspaper correspondents and photographers.

In the drawing there will be nine boards. The principals will be a blindfolded man who constantly stirs the 10,500 black capsules in the great glass bowl in which they have been placed, another blindfolded man who draws the capsules from the bowl one at a time and two announcers, one standing at each side of the bowl and to whom the capsules will be handed in turn as they are drawn.

Announcers to Break Capsules
The announcers will break the capsules as they receive them, extract the tiny slip of paper on which a number will be stamped and call a number to three tally clerks. The slip will then be handed to an official in front of the bowl who will verify the announcers' report and on his verification, another man, stationed at a great blackboard will write the number in its order on the board. The board will hold 1,000 numbers. When it is filled it will be taken out of the room, photographed cleaned off and returned, the drawing continuing meanwhile with a second board in use.

Message Came From New Jersey
The telephone message referred to by General Crowder in his statement came from the adjutant general of New Jersey. When that officer learned thru publication of the system of double drawing, announced earlier in the day, he saw immediately that a great injustice would be done in his state because of the way in which the local boards had given serial numbers to the cards from the registration products.

The New Jersey officer promptly communicated his discovery to the office of the provost marshal general. A hasty conference of officials was called behind locked doors and a quick search made in the local board records of many states which have been received here. A similar situation was found to exist in

FOOD CONTROL BILL APPROACHES FINAL FORM

Senate Adopts Amendments to Limit Government Control

Votes to Vest Administrative Authority in Three Salaried Members Instead of a Single Individual—Partisan Lines are Erased in Debate.

Washington, July 19.—The administration food control bill today approached final form in the senate. Making rapid progress under a limited debate agreement the senate approved 60 to 16, an amendment drafted to joint conferences of the Democratic and Republican leaders to limit government control to food, feeds and fuel including kerosene and gasoline and to vest the administrative authority in three salaried members instead of a single individual.

Expect Action to Stand.
Altho the action was tentative and will be subject to reconsideration before Saturday's final vote on the bill, it is expected by the leaders to stand and to be accepted by the house in conference. The vote was regarded as forecasting general support of other bi-partisan proposals awaiting action.

Tomorrow the senate expects to dispose of the modified federal licensing section and that fixing a minimum price for wheat. A price of \$2 per bushel at primary markets is expected to have the support of a large group of senators.

Partisan lines were erased in today's debate and voting which brought to a head in sharp clashes the controversies which have engrossed the senate for a month. The name of Herbert Hoover frequently was brought into the discussion and altho the senate voted for a food commission instead of a single administrator, it rejected by overwhelming viva voce votes amendments by Senator Reed who has assailed Mr. Hoover bitterly, designed to prevent him from serving.

Criticism Senator Reed.
Senator Reed was vigorously criticized by Senators Hollis, Williams and others for his attacks on Mr. Hoover. The amendment limiting the necessities for government control and providing for the food board was written into the bill after many futile attempts were made to name other articles for government regulation. The 16 senators voting against accepting the substitute were:

Borah, Cummins, France, Gronna, Hitchcock, Husting, Jones of Washington, Kellogg, LaFollette, McNary, Nelson, Norris, Reed, Sherman, Sutherland and Townsend.

An amendment by Senator Kenyon seeking to include iron ore and its products, including steel, farm implements and tools and binding twine was rejected, 44 to 28. The senate also rejected by identical votes of 50 to 27 amendments by Senator Newlands to add iron, steel, copper and aluminum and its products and by Senator Borah to add fertilizers and their ingredients. Senator Husting's amendment to give the president power anytime to place additional products under federal control was rejected 58 to 15.

REPORT EUGENE AZEL INTERNEED IN GERMANY

COPENHAGEN, July 19.—Berlin newspapers received here report that Eugene Azel who eight years ago was the head of the Russian Socialists is among the Russian civilians interned in Berlin.

Azel fled from Paris after Vladimir Gourtzeff, a Russian revolutionist, had charged him with being a police spy, in order to escape the vengeance of the revolutionists and became a wanderer, travelling under various names.

When the war broke out Azel was in Germany and was interned, according to the report. Later he fell sick and was removed to a hospital and finally appealed to the Russian prisoners of war committee for assistance.

RELEASE GOLDMAN AND BERKMAN ON BAIL

NEW YORK, July 19.—Emma Goldman and Alexander Berkman, anarchists were ordered released from prison on \$25,000 bail each by United States Supreme Court Justice Brandeis when he granted a writ of error in their case in Washington today holding that no conspiracy had been proved according to a statement issued here tonight by attorneys for the defendants. Bail for Louis Kramer and Morris Becker, whose cases were appealed with those of Miss Goldman and Berkman was fixed at \$10,000 each, with an additional bond of \$2,000 for Kramer who refused to register under the selective draft law says the statement. All four were convicted of conspiracy to obstruct the draft law. Berkman, Kramer and Becker are in the federal prison at Atlanta and Miss Goldman is in prison at Jefferson City, Mo.

MAKES PAYMENT POSSIBLE

Chicago, July 19.—Payment of mortuary claims against the North American Union which have accumulated during the four months it has been in the hands of a receiver is made possible by a decree signed today by Judge Poell in the superior court placing its management in the hands of the Fraternal Aid Union. The claims aggregate \$500,000 and, according to officials of the Fraternal Aid Union, will be paid within the next few days.

STATES COUNTRY MUST RETAIN FREE PRESS

PHILADELPHIA, July 19.—Speaking on a censorship of war news before the chamber of commerce here today, Louis Wiley, business manager of the New York Times said it was necessary the country retain its free speech and free press. He declared that a crisis is when mass opinion must dictate ultimate judgments any restriction which would withhold essential information and enlightenment from all the people could be neither wise nor patriotic. He emphasized the "patriotism of the newspapers" and showed by examples since the war that they have faithfully observed the voluntary censorship instituted by themselves on themselves.

"Under a rejected provision of the espionage law," said Mr. Wiley, "the newspapers would have been prevented by heavy penalty from freedom in the printing and collection of news. It would have been easy under the censorship provision for a few minor officials of the department at Washington to absolutely control the news of the war."

DANGER OF FURTHER RUSS TROUBLE OVER

Military Elements Repeat and Repudiate Cause

Petrograd Normal—Troops are Kept in Readiness for Any Trouble that Might Arise—Summons Special Congress to Meet at Petrograd July 28.

Petrograd, July 19.—With the repentence of the military elements concerned in the recent demonstration and their repudiation of the cause in which they temporarily enlisted, the danger of further disturbances by the Maximalists appears to be over for the time being. Today the city is normal. As a safeguard the bridge spans remained open this morning as they did yesterday, troops being kept in readiness for any trouble that might arise.

Infantry Arrives from Front.
During the night several companies of infantry arrived from the front to assist in the preservation of order. A detachment of Cossacks also reached Petrograd. Telegrams have been received by the ministers and councils of deputies from various parts of the country protesting a lack of sympathy with the Maximalist movement and giving assurance of support to the workmen's and soldiers' and peasants' organization. Only Kiev appears to have reflected to a minor degree the disturbances here. The group of soldiers seized the arsenal, but other troops immediately took their station to guard the public institutions. Later they succeeded in arresting some of those in revolt while others concerned in the movement fled.

A special congress of delegates representing all the councils of Russia has been summoned to meet at Petrograd July 28 to determine the future composition of the cabinet and the governmental policy. Until then the present ministers have been given assurance of support. The congress will consist of delegates from the local and district councils of the workmen's and soldiers' socialists, Maximalists and Minimalist organizations and the regimental committees.

Owing to the urgent necessity of restoring public order and settling important questions the provisional government has decided to create this special commission to be in constant touch with the commandant of the Petrograd district.

M. Skobelev, minister of labor, Lieutenant Lebedev, director of the ministry of maritime and coast, representing the workmen's and soldiers' delegates.

TELLS OF FRANCE'S WORK TOWARD EDUCATION

NEW YORK, July 19.—Schools in caves, with pupils and teachers wearing gas masks, are extremes to which war-ridden France has gone to insure education for every child says an official report to the regents of the University of the State of New York by J. L. Finley, president of the University of the State of New York, and state commissioner of education who recently returned from an educational mission in France, during which he studied the effect of the war on the French school system. While France has restricted the use of food, fuel and light, has discouraged travel, has mobilized every able-bodied man for defense, she has not forgotten her culture defense, said President Finley. Women by thousands have taken the places of men teachers called to the front, many of whom, finally incapacitated for battle by wounds have again returned to teach.

SAYS STATE WITNESSES CHANGED TESTIMONY

SAN FRANCISCO, July 19.—State witnesses deliberately changed their testimony given in former trials to conform with the state's theories in the trial of Mrs. Rena Mooner for murder in connection with the bomb murders here last July. Maxwell McNutt, counsel for the defense told the jury in his opening address today. McNutt declared the state had proved no motive for the crime, that testimony of alibi witnesses for Mrs. Mooner had not been impeached, that the case against her had been built up by Martin Swanson, a detective employed by the district attorney. McNutt will conclude his argument tomorrow.

MICHAELIS ADHERES TO U-BOAT WARFARE

New German Chancellor Declares Campaign a Lawful Measure

TRIBUTE TO HOLLWEG
Chancellor Says War was Forced Upon Germany By Russ Mobilization

PEACE OFFER FAILED

COPENHAGEN, July 19.—Dr. Michaelis, the new imperial German chancellor in his address to the reichstag Thursday afternoon declared his adherence to Germany's submarine campaign asserting it to be a lawful measure, justifiably adopted and adapted for shortening the war.

Dr. Michaelis opened his reichstag speech with a hearty tribute to Dr. Von Bethmann-Hollweg, the retiring imperial chancellor, whose work he said, history would appreciate. The speaker declared that the war was forced upon unwilling Germany by the Russian mobilization and that the submarine war was also forced upon Germany by Great Britain's illegal blockade starvation war. The faint hope that America, at the head of the neutrals, would check Great Britain's illegality was in vain. Germany's final attempt to avoid the extremity by a peace offer failed and the submarine campaign was adopted, says the chancellor.

The submarines, the speaker continued, had done all and more than had been expected and the false prophets who had predicted the end of the war at a definite time had done a disservice to the fatherland. Dr. Michaelis in his address said: "Bitter criticism has been directed against a highly deserving man, who occupied his post before me. This criticism has been laid on my shoulders in a most grave time. Trusting God and German might I ventured to undertake it and shall now serve the cause to the utmost of my power. I beg from you your trusty co-operation in the spirit which has been splendidly maintained in this body during the war."

To Move Peace Resolution.
Amsterdam, July 19.—The Gerlin Tageblatt says the committee of the majority party in the German reichstag have unanimously decided to move the peace resolution. Previous to the committee was divided, two members of the center and one liberal disagreeing with the majority. The Tageblatt says that in the reichstag 221 deputies will vote for the peace resolution.

Sends Message to Czernin.
Copenhagen, July 19.—On acceptance of the German chancellorship says a Vienna despatch, Dr. Michaelis sent a message to Count Czernin, the Austro-Hungarian foreign minister, declaring that he regarded it as his chief duty to preserve the previous inheritance of the closest and most loyal confederation. It was his firm conviction that Austria-Hungary and Germany would be victorious and that the war would secure for the heroic peoples a happy and a bright future. Count Czernin in reply, said he saw the most secure guarantee of a happy future for the peoples in intimate and confident co-operation with the leaders of the German policy and firm insistence upon the well-tried alliance. Austria was ready for a glorious peace, but otherwise, was determined to fight to the last. Germany and Austria would in co-operation force conditions insuring an undisturbed and peaceful future.

REPORT AMERICANS TRIED TO KILL KAISER

LONDON, July 19.—The Reuter Amsterdam correspondent sends the following: "According to information available here, which must, however, be treated with necessary reserve, two Americans were shot recently on the charge of having attempted to take the German emperor's life."

TWO THOUSAND STRIKE

Seattle, Wn., July 19.—At the headquarters of the International Shingle Weavers' Union today, it was said that reports from all mill centers showed that 2,000 men in the state of Washington are on strike and that the state's entire lumber and shingle industry is tied up. Manufacturers say the men have not made known their reason for striking.

CONGRESS TAKES NOTE OF SHIPBUILDING ROW

Call On Wilson to Furnish Information Concerning Program

Senate Passes Resolution Without Debate—Shipping Board and General Goethals' Continue Discussion of General Goethals' Plans

Washington, July 19.—Congress took note of the shipbuilding row today when the senate passed without debate a resolution offered by Senator Smoot calling on President Wilson to furnish information concerning the government's ship construction program. Meanwhile members of the shipping board and Major General Goethals, manager of the board's emergency fleet corporation, continued discussion of General Goethals' plans for building two government ship plants and for commandeering tonnage building in private yards.

Seeks Further Information.
Chairman Denman announced tonight that the board seeks further information concerning the general's program and that no decision approving the program will be made until the subject has been given full consideration.

Persons in close touch with the situation still see possibilities of differences between General Goethals and the board which will be hard to settle. There have been intimations that the board may disapprove of parts of the general's schemes. If this situation arises many believe it will be necessary for President Wilson to decide finally as to who shall be in supreme charge of the building program. Friends of General Goethals say he may refuse to accept the board's suggestions, if they involve radical changes in his plans.

Do Not Agree As To Sites.
Chairman Denman's announcement indicates that the board does not agree with General Goethals as to sites for the government plants and that it will insist that they will be placed on government owned land and that the general abandon his plan for giving contractors who build the plants option to purchase them. The shipping board it is understood as determined that profits in building the fabricated ships be held down and that there shall be no double profit on manufacture of the steel for the ships and on actual construction.

OFFICIALS INVESTIGATE ALLEGED PLASTER PLOT

KANSAS CITY, Mo., July 19.—Whether an organized German propaganda of terrorization was back of the alleged poisoned court plaster plot is a question for solution of which free rein was given by the attorney general of the United States today to Fred Robertson, United States District Attorney for Kansas, and associates. Ten guinea pigs have been inoculated with a culture from samples of the suspected adhesive, which government bacteriologists have declared contained bacilli of tetanus and reactions are expected within two or three days, it was said.

Two of the three men arrested charged with peddling or giving away the court plaster were released but one giving the name of John Lyng is in jail at Marysville. Samples of the adhesive taken from him showed evidence of having been tampered with.

Federal authorities here are waiting definite information regarding the death at Winfield, Kans., several days ago of Charles Mulford, who succumbed to tetanus after use of court plaster on a sore leg.

PRESIDENT PARDONS SIXTEEN WOMEN

WASHINGTON, July 19.—Sixteen women sent to the work house for their part in the tumultuous suffrage demonstration Saturday at the white house accepted pardons from President Wilson today and were released after serving two days of their sixty day terms. The prisoners left the workhouse apparently without regret despite their previous declarations that they desired to serve out their time without appeal or clemency.

At headquarters of the woman's party the sixteen were received as martyrs and at a dinner given in their honor plans were made for continuing the white house picketing of which Saturday's demonstration was a part to impress President Wilson and the country.

The president acted after the husbands of several of the prisoners had interceded in their favor and after he had been told that some of them had children needing their care.

DISMISS INDICTMENTS AGAINST OPERATORS

NEW YORK, July 19.—Indictments against several West Virginia and Virginia coal corporations and operators dealing in smokeless and bunker coal, charging them with conspiring to fix prices and restrain trade were dismissed by Judge Grubb in federal court here late today on the ground of prior jeopardy. The same individuals and companies were among those recently acquitted of similar charges in relation to semi-bituminous coal. Indictments against eight other companies not previously placed on trial remain to be prosecuted.

U. S. TROOPS BATTLE WITH MEXICANS

Exchange Approximately Five Hundred Shots Across the Rio Grande

NO AMERICAN CASUALTIES

Fight Starts When Several Shots are Fired at Patrol from the Mexican Side

SEE MEXICANS FALL

MISSION, Texas, July 19.—Approximately five hundred shots were exchanged across the Rio Grande today at Ojo de Agua, eight miles southwest of Mission between a small American border patrol and a number of unidentified Mexicans. There were no American casualties but latest reports here say two or three Mexicans were seen to fall during the engagement which started at 11 o'clock this morning and ceased at 5 o'clock when the Mexicans withdrew from the river.

The Americans were under command of Corporal Kent, the identity of whose regiment is not known here and the fighting started when several shots were fired at the patrol from the Mexican side.

Outpost Sends Reinforcements.
The outpost at Ojo de Agua hearing the Americans returning the shots sent reinforcements. The fighting continued six hours. Late today, Colonel B. F. Delamater reached the scene with one hundred men from K and M companies of the second Texas infantry from nearby outposts. A strong patrol has been thrown out along the Rio Grande in the affected section as a precaution against a possible attempt at border raiding.

Few details of the engagement reached here tonight. One report says three distinct bugle calls were heard. This leads to the belief here that the Americans were attacked by an organized force. The last of the attackers disappeared in the brush at 5 o'clock before Colonel Delamater reached Ojo de Agua.

Confirm Reports of Fight.
Brownsville, Texas, July 19.—Official reports were received at army district headquarters here late tonight from Col. B. F. Delamater of the Second Texas Infantry confirming reports from Mission, Texas, that an American patrol had been fired upon across the border near Ojo de Agua. Colonel Delamater said he had gone to the scene and would make a full report later.

Earlier reports here stated the trouble had been between American patrolmen and Mexican cattle thieves on the American side. There was nothing to confirm the latter report.

Colonel Farrand Sayre, commander of the Brownsville district told the Associated Press tonight he had no information to indicate the identity of the Mexicans or as to whether cattle rustlers were implicated. Several detachments of Mexican troops are on patrol duty opposite Ojo de Agua, it is understood here.

The unconfirmed reports concerning a clash between Americans and Mexican cattle rustlers on the American side late 100 shots were exchanged in the dense brush between Penitas and Ojo de Agua. The Mexicans, it is said, fired on the Americans, members of the Second Texas Infantry from the brush. The Americans, reinforced were said to be chasing the Mexicans tonight. The latter were believed to still be on the Texas side.

CONSUMPTION OF FLOUR DECREASES

WASHINGTON, July 19.—A decrease of ten percent in the consumption of flour in England in June is the claim made by National War Savings committee as a result of the eat less bread campaign inaugurated to conserve food, according to a report received by Herbert Hoover today. This, saving, it is stated, is in excess of all expectations.

WEATHER INDICATIONS AND TEMPERATURES

Illinois—partly cloudy Friday and Saturday, possibly scattered thundershowers Friday in southeast portion; not much change in temperature.

HOLLAND'S DAIRY INTERESTS

Let us hope that the news from Holland of the necessity or intention of killing many dairy cattle for food purposes is incorrect. Dairying is one of the chief industries of Holland. Much of the fine stock in other countries originated there, and a vast number of the population earn their livelihood thru the dairying interests. Certainly in that land the people should be willing to approach very near to starvation before slaughtering their dairy animals and thus destroying their source of subsistence. The story sounds like a bit of the desire to impress America with the idea that conditions are very bad and that the announced embargo on foodstuffs from this country will create an acute situation.

RED CROSS WORK SUPPLANTS BRIDGE PARTIES.

Each day brings its new manifestation of the keen interest that women are taking in war preparations and their willingness to make any necessary sacrifices for the comfort and well-being of soldiers. One bit of evidence along this line is found in the fact that here in Jacksonville at the meetings of various church societies where sewing is done for Red Cross, customary refreshments are missing. The women say that they would not feel right about making a social event out of such an occasion, and then their banishing of the refreshments means the saving of just that amount of foodstuffs.

Still a more pointed illustration of the same truth is seen in Chicago "high society." The society columns of some of the city newspapers mention that Red Cross work has put bridge parties clear out of business. The women who were accustomed to meet weekly or more often for their bridge games are now spending even more time in the Red Cross sewing work and are tremendously in earnest.

BUSINESS DIFFICULTIES

Uncertainty in present market conditions find no better illustration than in the case of elevators. In nearly all of these elevators, the managers will tell you if you have a car of wheat to sell that they cannot quote a price but will ship it for you to one of the markets.

and charge you the customary commission of a few cents a bushel for handling it. This means that the grain men do not know just where they are "at." One reason for this is because they are not yet familiar with the new government rules of grading and so when they ship a car of grain to a big market center they do not know whether it will be sold as No. 1, No. 2 or as of some other grade. Another cause of uncertainty is found in the sharp fluctuations of the market, which seems easily affected by reports of damage to crops or by news from abroad, or by possible government control.

The situation of the grain men is just that of many engaged in other lines. They do not know whether they have on hand or to buy more, and each day they are looking and hoping for some development which may bring stability. It is this condition of uncertainty, as mentioned before, which makes it difficult to conduct business these days.

OVERDOING SENTIMENT

General Glenn, in command at a Benjamin Harrison, gave an audience of women something of a surprise when he was asked what they could do to be most helpful to the soldiers in training there. His answer was, "Let them alone." With very good intentions the women had been planning various social events and hundreds of them had begun writing letters to the soldiers and sending them little gifts. The general declared that at this stage of their military service the men have all the comforts and entertainment they need, and that the plans which the women are proposing, especially the letter writing, would interfere with the morale of the soldiers.

At all the army encampments it is said that hundreds of soldiers are receiving letters, mostly sentimental, from women they do not know and the effect is anything but helpful. There is plenty of chance for good helpful work for the army and navy, but it is not along the lines that some women as individuals are following. For the present Gen. Glenn prefers to leave the work of entertainment to the Y. M. C. A. and kindred organizations. "Do all you can for the soldiers but don't let sentiment warp your judgment," is another way that the general's remarks to the Indiana women might be interpreted.

THE CHURCH AND ITS DEBTS.

A church trustee apologized not long ago to a Jacksonville business man because of somewhat long delay in paying a bill the church had contracted. "Oh, I had thought nothing particular about that," came the answer. "When we do a piece of work for a church organization we charge it on our books and then dismiss it from our minds except to occasionally send out a statement by mail."

Now the merchant "ferried to didn't mean that such an account was so good that there was no cause for worry, but he did mean that churches are proverbially slow in meeting their financial obligations. This does not apply to all churches but unfortunately it is true of many. "Unfortunately" is the proper word too, for a church, especially in the view of the non-church member, should be something of an example in its business dealings—should meet obligations promptly and should not expect to get more than a dollar's worth for every dollar expended.

The members and the officers of churches have a chance to effect a reform in this matter which will not only be beneficial to their own organizations but which will also increase the influence of churches and the regard in which they are held. Why shouldn't the churches furnish a first class example in every community of promptness and honesty in all their business transactions?

PEORIA'S WELFARE

Governor Lowden is out of the state just now but when he returns he will receive resolutions passed by the churches of Peoria calling his attention to conditions in that city where the state law with reference to open saloons on Sunday is violated and where it is said that liquor is freely sold to minors and habitual drunkards. The church people declare that neither the mayor of the city or the sheriff of the county will give them the desired relief and so they are forced to appeal to their state executive.

Judging from Gov. Lowden's well known attitude on law enforcement the people of Peoria are very likely to get some relief in this matter. Possibly the resolutions will be referred to Attorney General Brundage, who has already shown that he

has no hesitation about going into communities where law violations are rampant and compelling a clean up in the name of the state. It is indeed unfortunate for Peoria liquor interests that the authorities there are not willing to profit by the experience of Springfield and various other cities, where flagrant law violations by the saloons have resulted in the people rising up in their might and putting the saloons out of business. Sooner or later that very thing is going to happen to Peoria, and the more amenable to law the saloon interests are, the later will be the date.

FIRE DEPARTMENT

MOTORIZATION FACTS

The question of supporting the proposed issue of bonds for the betterment of the Jacksonville fire department is merely a matter of looking into the conditions and learning the facts. Motorization of the department means that obsolete and expensive methods of handling will be abolished and that modern and efficient equipment will be substituted. There have been great improvements made in fire fighting apparatus since the equipment now in the Jacksonville department was purchased.

If bonds in the sum of \$17,000 are authorized it is proposed to make this department thoroughly modern and thus afford the city adequate fire protection that it does not have. This proposed equipment will mean equal fire protection for all property owners and residents of the city, no matter how far distant they may be located from headquarters. Motorized equipment almost eliminates the time factor in fires, for a speed far in excess of that furnished by horses can be attained.

The purchase of such equipment does not mean greater expense of operation to be borne by the taxpayers. Instead, it means economy. The experience in other cities has shown that it costs much less for daily maintenance for motorized equipment than for horse drawn apparatus.

The plan is to refund the bonds in ten years time. A vote for this bond issue will mean your support for a needed forward movement for this city. As stated before, it is a question of efficiency and economy and those who look at the real facts without any relationship to any other matter, and who are in favor of economy and efficiency, will vote "yes" next Tuesday.

Rippling Rhymes
By WALT MASON

EXPERIENCE.

I jogged along a country road, in my large choo-choo dragon, and met a farmer with a load of pumpkins in his wagon. "Go back, go back," the granger said, thru whistles long and ruddy; "you'd best turn round—the road ahead is dangerous and muddy." "I never yet have seen the pike," I said, "that scared this auto, and I'll go on so help me Mike, for 'Get There' is my motto." I drove into a marshy hole, when I had gone some distance, and farmers took away my roll for giving me assistance. We toiled and wrought a night and day, to remedy my folly, and when again I took my way, I reeked with melancholy. The road of life is much the same, the road we blithely follow we're warned by men who've played the game, to shut swamps below. They tell us where the way is worst, and where the bridge is rotten, and when we've gone a half a verter their counsel is forgotten. We will not learn from sage and seer who've walked the path before us; we greet the prophet with a sneer and wise men only bore us. And every day we pay the price, the cost this course engenders; we stick in mud and break thru ice, and bust our best suspenders.

FUNERALS

HILL.

Funeral services for William Cornelius Hill, son of Charles and Margaret Hill, were held Tuesday afternoon at 1 o'clock from Bethel Chapel, near Chapin, Rev. J. E. Herbert in charge. Music was furnished by Mrs. L. M. Call and Mrs. George Anderson. Interment was made in the Concord cemetery. The child was two years, 9 months and 4 days old.

POLICE NEWS.

Andrew Bender was arrested yesterday by Detective White and Patrolman Jordan for riding a bicycle on the sidewalk adjacent to a paved street. He gave bond for his appearance at a later date.

James Ritchie was arrested by Patrolman Jordan on the charge of disturbing the peace. Ritchie is said to have created a disturbance at the First Ward playground. The complaint was made by Lucien Haynes who is custodian at the playgrounds.

NORTH END SOCIAL CLUB MET.

The North End Social club met Wednesday with Mrs. Jacob Stewart of Arnett street. Mrs. Abner was assistant hostess. The regular business of the club was carried out. Mrs. G. W. Cooper gave a reading. "The Possum Trot," by Paul Lawrence Dunbar. During the social hour that followed the hostesses served refreshments. The club adjourned to meet in August with Mrs. G. W. Cooper.

FREIGHT RATES AND FARM PRODUCT PRICES

Comparison is Made By Railway Age Gazette Under Heading "The Farmer and the Railroads."

In the current issue The Railway Age Gazette presents the following facts and figures to show that the freight rates for shipping farm products have by no means kept pace with the increases in the values of such products. The article is under the caption, "The Farmer and the Railroads" and reads as follows:

Statistics are Quoted

"Railway freight rates are lower at present compared with the prices of agricultural products than they ever were before in the history of the United States," the Railway Age Gazette points out in its current issue in an editorial commenting on the fact that the farmers, especially in the middle west, continue to oppose advances in rates, while most other business interests favor them.

"It is often said," the Railway Age Gazette remarks, "that while the prices which consumers have to pay for agricultural products have increased greatly, the farmers have not received the benefits of these increases. Official statistics on the subject demonstrates the incorrectness of this contention. The Statistical Abstract of the United States shows that between 1910 and 1916 the farm values of the most important agricultural products increased as follows: Wheat, from 88.3 cents per bushels to \$1.60, or 81.3 per cent; corn, from 48 cents to 83.9 cents, or 75 per cent; oats, from 34.4 cents to 64 cents, or 87 per cent; barley, from 57.8 cents to 88.2 cents, or 53 per cent; rye, from 71.3 cents to \$1.22, or 70.8 per cent; buckwheat, from 66 cents to \$1.13, or 70.8 per cent; potatoes, from 55.7 cents to \$1.46, or 162 per cent.

"Meantime, railway rates almost stood still. In consequence, whereas in 1910 the freight rates on a bushel of wheat from Chicago to New York was 11 per cent of the farm value of the wheat, in 1916 it was only 6.3 per cent of the farm value of the wheat. Likewise, while in 1910 the freight rate on a bushel of corn from Chicago to New York was 18.6 per cent of the farm value of the corn, in 1916 the rate from Chicago to New York was only 10.1 per cent of the farm value of the corn.

"How much the farm value of agricultural products have increased relatively to the rates which the railways received is strikingly illustrated by the increases which have taken place in the number of ton-miles and passenger-miles of transportation which can be bought with a given quantity of any farm product. For example, in 1910 a bushel of corn at the average farm value would buy 63 ton-miles of transportation, while in 1916 it would buy 126 ton-miles, an increase of exactly 100 per cent. Likewise, in 1910 a bushel of wheat at the average farm value would buy 17 ton-miles of transportation, while in 1916 it would buy 227 ton-miles, an increase of 94 per cent. Even more remarkable are the relative changes in the farm value of potatoes and in the average railway rates. In 1910 a bushel of potatoes at the average farm value would buy 74 ton-miles of transportation, while in 1916 it would buy 207 ton-miles, an increase of 166 per cent. Certainly such increases have occurred in the prices that the farmer receives he has become able to pay much higher rates than he is now paying.

Arguments for Higher Rates.

"Furthermore, it would be to his interest to pay higher rates. Good and adequate service is more important to him, as well as to all other shippers, than the lowest rates than can possibly be obtained. Now, as a matter of fact, the farmer, like other shippers, has not within recent years been receiving adequate service. Why? Because the railways have been able to increase their facilities as fast as the demands for transportation have increased. They have been unable to increase their facilities sufficiently because, excepting in the abnormal year 1916, their net return has shown a steadily downward tendency and this downward tendency has been due to the fact that they have been unable to secure increases of rates to offset the increases in their expenses. Finally, their inability to secure reasonable advances in rates has been chiefly due to opposition which has come, not only in the 15 per cent case, but in earlier rate advance cases, from the agricultural districts, and especially from those in the middle west.

"In thus opposing all advances in freight rates regardless of the great changes which have been and still are taking place in the transportation field, the farmer is injuring himself more than anybody else. He is losing, and will continue to lose, much more money because he cannot get enough cars in which to ship his products when he wants to ship them than he has gained or can gain by freight rates which are so low as to disable the railways from providing sufficient facilities."

WOODSON REVIVAL SERVICE

Revival services will begin at Woodson next Sunday, July 22, in charge of Evangelist Chester Birch. Services will be held in a tent which has been erected for the purpose and Rev. J. Latham is the chairman of the general committee for arrangements. The services will begin Sunday morning at 10:30 o'clock and another service will be held at night each night thereafter until August 12.

Rev. Mr. Birch, who is known as the cornetist evangelist, is endorsed by prominent pastors the country over. He has been very successful in his work in a large number of cities and towns, and it is said that he has a message well worth hearing.

Miss Lucile Harber, of this city, is spending few days with her cousin, Miss Marie Clendenin of Springfield, Mr. and Mrs. Thomas Harber and Miss Esther Davis motored to Springfield Wednesday afternoon and returned that evening.

ILLINOIS GRADUATE MEETS VIOLENT DEATH

Parker E. Noll of Mt. Vernon Dies as Result of Gasoline Explosion—Graduated with Class of 1912—Was Popular Athlete.

Jacksonville friends will be saddened to know of the death of Parker E. Noll, of Mt. Vernon, Ill. Mr. Noll is a graduate of Illinois college with the class of 1912, and during his college days he was known as one of the best and most popular athletes in the Little Nineteen conference. He was a member, and former president of the Sigma Pi society. He met his death as the result of a gasoline explosion. He came to Jacksonville in the fall of 1908, and was, during his student known as a hard worker, and a young man of genial disposition and strong and pleasing personality. Since finishing his college course he has been engaged in teaching.

The Daily Register of July 13 has this to say of his sad death: "Parker E. Noll, son of Mr. and Mrs. Eugene Noll of this city, died today at 11:30 as the result of injuries sustained by gasoline burns received at Mt. Shells Monday night while returning with the family from Evansville, where they had visited. The public is familiar with the circumstances attending the injury Mr. Noll sustained and the fact that death was occasioned by inexcusable carelessness on the part of another adds to its sting.

"Mr. Noll developed dangerous symptoms about 5 o'clock this morning and it was hoped would soon show marked improvement. It soon became evident, however, that death was a question of hours only.

"His death was a great shock to not only his immediate family but to his many friends and the public generally as it was thought his chances of recovery were fair, and the announcement early this morning that his condition was grave was sadly received by everyone.

"He was a young man of great promise, and has a host of friends, and had a most promising future. He had embraced the profession of teacher and taught with marked success in Wisconsin in the high school and his prospects for securing the position of principal were very bright. He was employed for the coming year at Ripon. He was born January 5, 1889, in this city.

"May 11, 1891, he was united in marriage with Miss Marian White at Lena, Illinois, and the wife and one child, with the parents of Mr. Noll survive.

"The many friends of the young man deeply deplore his death, and the family have the deepest sympathy of everyone."

COAL ECONOMY IN THE HOME.

If every householder and owner of a small house heating plant in the state of Illinois would use reasonable care in the purchase of his fuel and in the operation of his plant, the saving would be equivalent to 4,500,000 tons of coal. According to a circular just issued by the Engineering Experiment Station of the University of Illinois such a saving is easily within the range of practical attainment. Applied to the entire United States, intelligent attention in the operation of house heaters would save more than sixty million tons of coal.

The University of Illinois has discussed, in the circular referred to, the more important factors involved in the installation of a satisfactory house heating system, and has set forth the most economical methods of firing soft coal and operating a house heating plant. The properties of fuels, and the processes attending their combustion are discussed in a fashion which is intended to help the average householder to understand his problem and to secure the economies of intelligent operation.

Tables giving the trade names, geologic names, and average heating value of the coals of the central western area are contained in the circular and a chart is presented to show the relative worth of coals of different heating values. Some attention is also given to the properties of eastern coals.

Diagrams in color illustrate the usual heat losses which occur and suggest the means to be employed in overcoming them. Methods and devices for regulating house heaters are shown by drawings, and the importance of proper chimney height, tight flues, and of various dampers and regulators is emphasized by a number of illustrations.

Copies of this circular may be had by addressing the Engineering Experiment Station, Urbana, Illinois. The price is ten cents.

TO TRY SECOND NEGRO FOR WOMAN'S MURDER

Mobile, Ala., July 19—The case of Albert Sanders, one of the two negroes accused of the murder of Mrs. Julia May Hess, on the night of May 21, was called into court today for trial. Mrs. Hess, wife of a locomotive visit relatives. She engaged Fisher Brooks, a negro taxicab driver, to take her to the station. Several days later the woman's dead body was found in a creek. Brooks was tried, convicted and sentenced to death for the crime. Following his conviction he is said to have made a confession in which he alleged that Sanders had done the actual killing. Robbery was the motive of the murder.

WAVERLY GIRL WEDS

Miss Mamie L. Gordon of Waverly was married Wednesday at the St. Nicholas Hotel in Springfield, to John W. Duncan, a wealthy lawyer, banker and grain dealer of Palmyra, Ill. The ceremony was performed by Rev. W. J. Campbell, pastor of the First Baptist church of Waverly. Only immediate relatives witnessed the ceremonies, and a wedding dinner was served in the dining room of the hotel, after which the young people departed on their wedding journey. After August 1, they will be at home to friends in Palmyra.

Why Malleable
Iron Ranges?

So that they may be
riveted tight like
a steam boiler.

Did you ever draw two pieces of cast iron together with bolts? Did you get it tight? No; the cast iron broke. Did you ever bend a piece of enameled iron? What happened? The glass covering, the enamel, cracked and peeled off.

Ranges—the perfect cooking machine—must be tight as a steam boiler.

Nothing that can't stand riveting and drawing tight is worth working up into a high grade range like the Copper-Clad.

Get a malleable iron range because they are tight and stay tight. While getting, get the one malleable iron range with the solid malleable back flue—the Copper-Clad—the range that can't rust out.

Household Science Club

with Mrs. Coultas of Chapin.

Members of the Household Science club of Chapin, met Wednesday afternoon at the home of Mrs. Ellen Coultas, Casserole dishes and the canning of vegetables were the main topics for discussion during the afternoon. Mrs. James Guinane was the leader of the round table first named. Roll call was responded to by naming some one famous in the musical world. An interesting sketch of the life of Mozart was given by Miss Helene Markham and following this the three minutes composed by Mozart during his fifth and sixth years were played. Miss Helen Yeck of Concord gave two brilliant numbers on the piano. Delicious refreshments were served by the hostess.

Mrs. Daniel Ward entertains for friends. Mrs. Daniel Ward entertained at her home two and one half miles north of Strawn's Crossing Wednesday afternoon, July 18, in honor of Mrs. Lewis Ward, who was formerly Miss Edith Lindsey, and who was married July 10. The event was a miscellaneous rush, and many beautiful and useful articles were received by the bride. Thirty two guests were present including Mrs. Dwight Kastrup of Galesburg, Ill.

Frank Strawn left Thursday morning for Chicago where she was to join her daughter, Miss Frances Strawn, the two proceeding to Pentwater, Mich., for a visit of several weeks.

RED CROSS MEETING AT FRANKLIN

A Red Cross meeting will be held at Franklin tonight for the purpose of organizing a branch. The people there are thoroughly interested in this work and in addition to the large membership already secured, have given the promise that they will secure a great many other memberships to credit on the additional thousand members desired from this county. Chairman Crabtree of the organization committee said yesterday that a thousand more members are desired in order to make this the banner county of the state. This does not mean that 8,000 memberships for Morgan county would be a greater number than secured from any other county but would mean a larger percentage of memberships, basing the membership on the population figures of the county. A very interesting meeting at Franklin tonight is anticipated.

WESTMINSTER CHURCH LADIES NEW FOR RED CROSS.

The ladies of the Westminster church met Thursday afternoon at the home of Mrs. J. H. Russell, at 238 Caldwell street, to sew for Red Cross work. Under way, is the making of two dozen bath robes, to be used by convalescent soldiers. These robes have all been cut, and one dozen of them are nearing completion. It has been the custom of the ladies of the church to meet each month for a social time, and a musical program has usually been prepared, but at the present time of need, the ladies are meeting each week in order to give relief to the wounded soldiers in the war hospitals. Those whose birthdays occur in May, June and July assisted Mrs. Russell as hostesses.

FROM MINNESOTA.

John M. Rule, who is here with his wife, from Tracy, Minnesota, is recovering from a long illness which compelled him to sell his holdings in a large hotel in that city, which he was operating. While Mr. Rule has not completely recovered his health, his recovery is expected in a short time.

NORTHMINSTER LADIES OBSERVE MOTHER'S DAY

Good Program Carried Out at the Church Thursday Afternoon—Children Work for Red Cross.

"Mother's Day" was observed in appropriate manner Thursday by ladies of Northminster church, in a well prepared program, in charge of Mrs. A. P. Vasconcellos, was carried out in the presence of a large number of members of the church and their friends. Following are the numbers:

Devotionals—Mrs. Sarah Goes. Duet—Mrs. J. A. Scott and Mrs. Joseph DeFrates. Reading, "The Red Cross"—Miss Ruth Souza.

Solo—Miss Esther Spoonets. The Rev. W. E. Spoonets, pastor of the church, gave a helpful address on Mother's Day and the meaning of its observance. Miss Louise Capps was present and made an interesting presentation of Red Cross work.

Red Cross work by the children has been carried on from day to day under Mrs. Vasconcellos' direction and a number were engaged in knitting Thursday afternoon in one of the Sunday school rooms, where the work was eagerly inspected by their elders.

Excellent refreshments were served during the social hour which followed the program. The hostesses were Mrs. David McGloshen, Mrs. J. A. Sardinha, Mrs. M. G. Fernandes, Mrs. Louis Frank, Mrs. Anna Oliver Baptist, Mrs. Guy Lynn, Mrs. Charles Pires and Mrs. Frank Martin.

An all day quilting was held by the Ladies' Aid Society, in connection with the Mother's Day observance, the ladies meeting for work in the forenoon and enjoying luncheon which they had brought with them, at noon.

MAJORITY OPPOSE SEPARATE PEACE

Liverpool, July.—The decisive majority of the Russian people has no leaning to or connection with the movement in that country toward a separate peace, declared Sir Paul Vinogradoff, President of the Anglo-Russian Society of Petrograd, in an address he delivered here. Sir Paul predicted that there would be in Russia a recoil toward common sense and the adoption of a middle road between the extremists of the old regime and of the socialists. Dealing with the future trade relationship between Great Britain and Russia, Sir Paul said the two chief questions were, credit to Russian traders and the best means of extending international commerce.

DUTIES ON IMPORTS REDUCED.

Mexico City, July.—Duties on imports into Mexico by parcels post have been reduced by an order of the post office department. The duties on goods sent by parcels post previously were double the duties on the same goods sent by other means. By the new decree, persons or organizations that do not receive more than one package a month need pay only the regular rate of duty. For a second package within that time they will be required to pay fifty percent additional duty. For all other additional packages they must pay 100 percent additional duty, except in places where there is no railroad communication at which offices they need pay only 50 percent additional.

NEW ZEALAND'S WAR EXPENDITURE

Wellington, New Zealand, July.—New Zealand's war expenditure to the end of March was \$10,375,000 of which \$2,500,000 had been paid to the imperial government for the maintenance of Dominion troops in the field for transportation.

W. C. BRADISH RETURNS FROM BUSINESS TRIP

W. C. Bradish, vice president of the Clover Leaf Casualty Company, has returned to this city after an extended trip in the company's interest. His family, who have been visiting on their farm at Pontiac accompanied him, motoring from Pontiac to this city.

FORMER CENTENARY PASTOR NOW TEMPERANCE WORKER

Rev. W. A. Smith, pastor of Centenary church during the years 1893-1896, was in the city yesterday in the interest of the Anti-Saloon league, with which he is now connected.

IS GREATLY IMPROVED.

H. E. Frye who suffered a stroke of apoplexy Wednesday regained consciousness early Thursday morning. Thursday afternoon he was greatly improved and probably will soon recover. This will be gratifying news to Mr. Frye's many friends.

HAD OUTING AT LAKE

Mr. and Mrs. C. E. Cussins and daughter were members of a party which motored from Franklin on Thursday afternoon for an outing at Morgan lake. On their way home they encountered a belt of mud near Pisgah about half a mile in width and so deep that it was necessary to use the chains.

Miss Ruth Eastin, 439 Webster avenue, has returned from Louisville, Ky., where for the past four weeks she has been visiting at the home of her grandparents.

PURCHASES GRAIN SEPARATOR.

J. C. Musch, a prominent farmer residing near Arenzville, has purchased for his own use a grain separator and clover huller, which will be operated by a gasoline tractor. The outfit will be operated by Mr. Musch and his sons, who have had considerable experience in handling machinery.

ENTERTAINED AT DINNER.

Miss Virginia Cumming, 210 West College avenue, entertained at dinner Thursday for her friend, Miss Ruby Harris, who was in the city from Pisgah, shopping.

PYTHIANS SEEK TO INCREASE PATRIOTISM

Week Dedicated to This Cause by Supreme Chancellor's Edict—Saturday, July 28 to be "Patriotic Day"

Sometime since Honorable John J. Brown of Vandallia, supreme executive of Knights of Pythias, issued an edict calling upon the 750,000 members of the order to dedicate the week of July 23-28 to American patriotism. Calling attention to that order and outlining the program of patriotism which the Chicago lodges will carry out, the following letter has been addressed to all mayors within the state, calling upon them to issue a proclamation designating next Saturday, July 28, as patriotic day.

As a part of the Chicago ceremonials Knights from Illinois, Indiana, Michigan, Wisconsin and Iowa will gather at Lincoln park to take part in a rally. Army and navy drills will be a feature. Gen. Thomas H. Barry, commanding the central department of the artillery, and Commandant W. A. Moffet of the Great Lakes Naval training station, have been invited to take part in the ceremonial. Paragraphs from the letter to mayors are as indicated hereafter:

Letter Suggests Patriotic Day. "Alarm and discouragement will unfit us from performing our obligations to name and country. Therefore, every moral, intellectual, fraternal, physical and material means that we possess should be brought into service.

"Right, 'Farm,' 'Finance,' 'Follow the Flag,' is an excellent illustration, but, shall we continue to supinely declaim these half dozen words and trust to luck the Kaiser will abdicate before them? Or, is it not time for us to assemble, show our colors and let the world know where we stand? Would it not be well for us to set aside one day for a real 'get-together,' patriotic dedication of our lives, our fortunes and our sacred honor?"

"The order, Knights of Pythias, is a fraternal, beneficiary society, existing under and by virtue of an act of Congress. It has never and we hope will never engage in political controversies, but, we now feel that we should show our appreciation to the Country which gives us the right to exist, by public assertion that our first obligation is that of being loyal Americans.

"You may be interested in knowing, that the Supreme Executive of our organization is the Honorable John J. Brown, of 'old' Vandallia, Illinois. On June 20th, 1917, he issued an official edict to the 750,000 members that they dedicate the week of July 23rd to 28th, 1917, to American Patriotism. In conformity with his mandate, the 25,000 members in Chicago will convene in their lodge halls and hold patriotic devotions, which will be open to the public. On Saturday, July 28th, we will assemble at the monument of the immortal Lincoln, in Lincoln Park, and there in mammoth convention, pledge our unreserved, undivided loyalty to American Democracy and undergo a holier baptism in the fires of patriotic fervor. "As the Chief Executive of your splendid city, we appeal to you, to issue a Proclamation, designating Saturday, July 28th, 1917, as 'Patriotic Day.'"

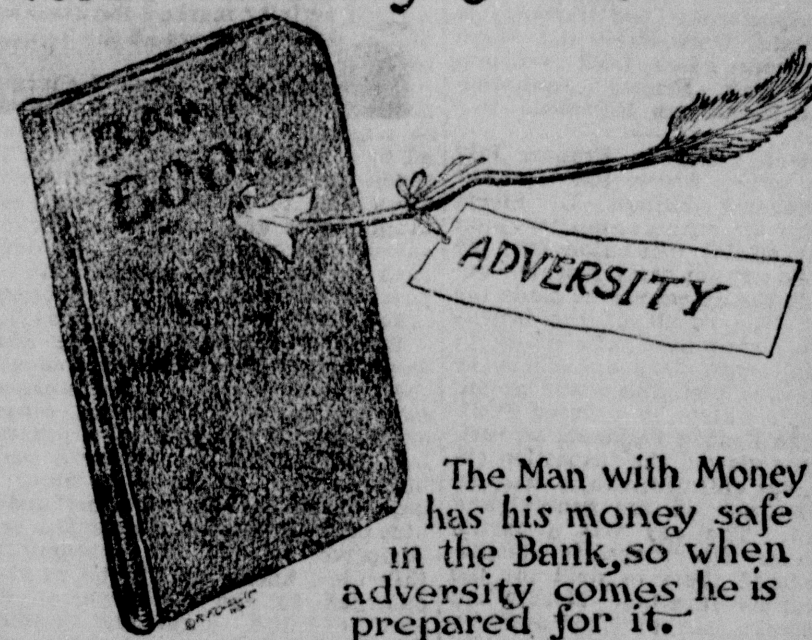

GEORGE HATZENHUBLER RECEIVES PROMOTION

George Hatzenhubler, former district deputy for the Modern Woodmen of America, with headquarters at Bloomington, has received a decided promotion. He is now national inspector of the order, and his new duties will carry him all over the United States, investigating claims and supervising district deputies. His work has always been faithful, and untiring for the good of the order, and his promotion is a deserving one.

RECEIVES PROMOTION.

Henry Jackson, who until two years ago was manager of the local office of the Wells Fargo Express Co., according to word received by friends in this city, has received marked promotion since leaving here. His most recent promotion has been to the position of traveling inspector of the central division of the company. This position is a very responsible one, and the friends of Mr. Jackson in this city will be exceptionally glad to hear of his advancement.

Sickness is bad; to lose your job is worse; but poverty is the worst calamity of all.

The Man with Money has his money safe in the Bank, so when adversity comes he is prepared for it.

"It never rains but it pours." It seems that everything happens to a man when he is BROKE. "Troubles never come singly."

Guard against poverty by putting some of your spare money in the Bank. Of all the worries and care the worst is poverty and debt. You can prevent them by the money you can well afford to put into the Bank now.

GENERAL SIBERT MAKES INSPECTION OF CAMPS

French Residents View the Inspection Curiously

Result Apparently Satisfactory in the Main, Only Here and There the General Finds Lack of Cleanliness and Proper Sanitation Which He Orders Rectified.

American Camp in France, July 19.—By The Associated Press.—Major General William L. Sibert went through his entire camp today on the first official inspection tour he has made. From early morning until late in the afternoon he made the rounds. The result of the inspection was apparently satisfactory in the main, only here and there he found lack of cleanliness and proper sanitation, which he ordered rectified. The French residents at various points viewed the inspection curiously, but enthusiastically, and occasionally cheered the general and his staff. The day was a partial holiday for the troops, for inspection relieved them of drill for the period of its duration. Hardly had the general's rear vanished away on the way to the next inspection point when the men were hard at work again mastering the technique and modern warfare.

The encampment of American troops here has almost metamorphosed this thoroughly and distinctively French town into an American community. Yesterday an American corporal opened a barber shop in the abandoned quarters of a one-time French barber who now is at the front and the American soon cornered virtually all the trade in town. French and American, and announced that business was far better than in his previous army shops in Manila, Hawaii, Alaska and on the Mexican border. As the kits have been unpacked, phonographs have made their appearance and the daily military concerts are supplemented by informal phonograph recitals. The French soldiers who are camping adjacent to the Americans are outspoken admirers of the American equipment and its practicality. They particularly praise the cotton belt worn by the Americans which they say has not an equal as a feasible means for carrying the multitude of various things.

Mail received here has been put in charge of one of the army chaplains who thus has a busy week between his Sunday duties and his work as postmaster. All letters and packages are forwarded from Paris and must be sorted and distributed under his direction. Likewise he has charge of all the outgoing mail which is turned over to him after having been censored by company officers.

DELEGATE FULL POWERS TO BOARD OF DIRECTORS

CHICAGO, July 19.—Members of the board of trade recognizing a national emergency, today voted to delegate full powers to the board of directors to take action, at any time during the war, which it may deem to the best interests of the board and of the country.

President Griffin explained that directors must have power to take instant action and to make unusual regulations, or power to close the board.

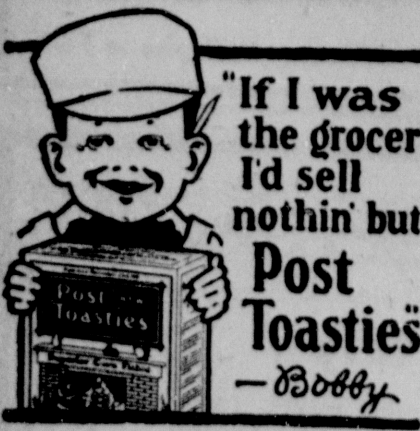

PLAN TO COMBAT

EFFORTS OF CONFIDENT MEN

Chicago, July 19.—The Y. M. C. A. and other organizations are formulating plans today to combat the efforts of confidence men who are obtaining considerable sums of money, it is said, selling promises to get exemptions from the draft. The imposters are said to work principally in sections of the city which are populated by foreigners who have little knowledge of the English language.

GIRL HIRES OUT ON FARM.

Chicago, July 19.—S. J. Tracy, of Morrison, Ill., has a new "hired man" on his farm today in the person of Miss Fay Moore, said to be the daughter of a wealthy rancher in Montana. Miss Moore declared herself to Dr. P. L. Prentiss, head of the United States employment service in Chicago, with the remark, "I want to take the place of some men who can go to war."

UNWONTED ACTIVITY MARKS TRAINING

Successive Details Charge Down Specially Prepared Runway to the Enemy Represented by a New and Elusive Dummy.

Port Sheridan, Ill., July 19.—Unwonted activity marked the training of the student officers at the reserve camp here late today.

Successive details of men charged down a specially prepared runway to a number of the enemy represented by a new and elusive dummy. To reach the enemy the prospective soldiers had to spring over wire entanglements and shallow trenches, assault the enemy with bayonet, rush up an incline representing a parapet and tackle with bayonet another detachment of the enemy.

Some of the charging men went down amid the wire entanglements, the good huddlers in some instances met disaster at the trenches, others again met difficulty at the parapet but many found the enemy a stubborn fellow. As he is of fibre a bayonet to be effective must strike him fairly and when it does the presumptive hole in the anatomy of this fibre enemy should be further enlarged by the discharge of the gun of the onrushing soldier. Should the bayonet not strike the enemy squarely in the amidriff, he swerves and sways and not infrequently down to earth goes his assailant.

Barratt O'Hara, former lieutenant governor of Illinois, was examined today as an applicant for admission to the second series of officers' reserve training camps. He has the advantage of having had experience as a soldier in the Spanish-American war from which he came out a corporal.

ALLOTMENT OF STATE'S QUOTA NOT COMPLETE

SPRINGFIELD, Ill., July 19.—Allotment of Illinois' portion of the national draft army to the various districts of the state will not be completed for at least two or three days, it was stated by Col. E. J. Lang, in charge of the army registration, in Illinois today.

The allotment is going ahead on the basis of the 51,000 quota which Governor Lowden protested against as too high. The provost marshal general's office at Washington has assured the governor, it is announced, that the justice of the protest will be looked into carefully.

The census bureau's estimate of the population of Illinois, it is declared, is approximately 1,000,000 too high.

Word was received from Washington today that the complete Illinois war registration report had been received.

DECISION NOT PROBABLE BEFORE AUGUST 1

CHICAGO, Ill., July 19.—B. J. Rowe, coal traffic manager of the Illinois Central railroad, and L. E. Weitzel, head of the Western railroad statistics bureau told of increased costs of labor, equipment and shipping at the hearing today before the public utilities commission on the petition of the railroads of the state for an increase of fifteen cents a ton for carrying coal.

It was expected that the hearing would end today, but it was represented to the board today that there were a number of witnesses who wished to testify and it was therefore announced the hearing would continue until tomorrow. A decision it also was announced was not probable before Aug. 1.

FEEL POWERLESS TO AVERT STRIKE

DENVER, July 19.—Federal mediators feel powerless to avert a strike of miners in the Leadville district they telegraphed President Wilson tonight.

It now seems that fourteen hundred men employed in the mines and smelters will go on strike Saturday morning.

Within ten days the Leadville smelter will be compelled to lay off its 1,000 employees and within two weeks 3,500 mine, mill and smelter men will be idle because of the strike of the miners according to a statement made by Charles H. Moyer, president of the International Union of Mine, Mill and Smelter Workers tonight.

ENTERTAIN WOUNDED AMERICANS IN ENGLAND

LONDON, July 19.—Two hundred and fifty wounded Americans, members of the British army and navy, were entertained today at Holland Park by the Red Cross committee for American soldiers and sailors. The Belgian refugees' band and other entertainers were engaged by Mrs. Walter H. Page, wife of the American ambassador. Mrs. Whitelaw Reid, widow of the late American ambassador and Mrs. Robert P. Skinner, wife of the American consul-general, who have been caring for the comforts of the Americans.

WAR NEWS SUMMARIZED

Having brought up heavy reinforcements all along the line the Germans and Austro-Hungarians in eastern Galicia have started what apparently is a tremendous offensive against the Russians. From Brody near the northeastern border of Galicia, southward to Below Kaluz the operations are in full swing, but have not yet developed to an extent where particulars of the battles in their entirety are available.

The latest German official communication announces that the Germans have accepted the gage of battle thrust upon them by the Russians and in counter-attack on the line guarding Lemberg from the east have defeated the Russians over a wide front near Zloczow, which lies on the Tarnopol-Lemberg railway line about forty miles distant from the capital.

To the north in Volhynia and still farther north on various sectors to the Baltic sea, especially around Smorgon and Dvinsk heavy artillery duels are being fought. Near Lutsk in the famous Volhynian fortress triangle the Germans report the capture of many Russian prisoners.

Apparently the Germans are intent on breaking the French line in the region between Soissons and Rheims, having delivered another tremendous assault from northeast of Craonne to East of Hurtlebise.

Into the fray were thrown picked troops, who were mown down everywhere and that attack, like others that had preceded it, failed. Near St. Quentin, where for some time the situation has been calm, the Germans also delivered attacks on a front of about a half a mile. Here they succeeded in penetrating French first line positions, only to be expelled from them in a counter-attack.

There has been no diminution in the artillery duels between the British and Germans in Northern Belgium nor in the ceaseless small attacks the British have been making against German trenches for many days. Around Monchy-le-Preux, these infantry attacks have resulted in the British regaining all the ground they lost to the Germans east of Arras July 11.

Notwithstanding the terrific heat the British forces operating against the Turks have made a 12 mile advance up the Euphrates while in the Caucasus region the Russians have carried out successful raids against the Ottomans. The latest reports from Petrograd indicate that the disturbances of the last few days have been quelled and that the situation is well in hand. The streets of the capital are being patrolled by Cossacks and other mounted troops. One report is to the effect that there has been a discussion in an extraordinary cabinet council of a proposal to transfer the seat of the provisional government to Moscow.

SHIPS OF HIGH SPEED ESCAPE SUBMARINES

NEW YORK, July 19.—Danger from submarines is virtually nonexistent if the vessels attacked can attain a speed of 20 knots an hour, according to charts displayed at a shipbuilding conference here today under the auspices of the chamber of commerce of the state of New York.

The figures were shown to lend emphasis to a demand that the ship construction controversy be settled immediately and that the vessels built either of steel or wood be so constructed that they can make at least 16 knots an hour. The chart showed that 100 per cent of the vessels with a speed of five knots or less which have been attacked have been sunk. The percentage of losses decreases as the speed of the ship increases. At 6 knots an hour the percentage sunk has been about 25.

GIVE FIGURES OF GERMAN CASUALTIES

LONDON, July 19.—The German casualties reported in German official hits during June, but not as having occurred in June, are given out by the war office here as follows:

Killed and died of wounds—28,819.
Died of sickness—32,215.
Prisoners and missing—38,606.
The totals of the German official lists since the war began are:
Killed or died of wounds—1,022,804.
Died of sickness—72,960.
Prisoners and missing—591,966.
Wounded—2,825,581.
The naval and colonial casualties are not included.

WORK TO INCREASE RED CROSS MEMBERSHIP

CHICAGO, July 19.—In an effort to bring the Red Cross membership of Illinois to a war strength of a million, word was sent today to each of the 610,000 members in the state that each would be expected to get a new member during the coming week. The period from July 30 to August 5, inclusive has been designated "Humanity Week" and each of the county chapters have been urged by W. D. Thurber, director of the Illinois Red Cross to arrange a special program for the week.

Cooperation of civic and business organizations in each community will be sought in the drive for increase in membership.

ENGLAND REFUSES PASSPORTS

LONDON, July 19.—The government has refused passports to the two delegates, O'Brien and Campbell of the Irish Trade Union Congress and the Labor Party to proceed to Stockholm and Petrograd. These delegates were appointed to attend the Socialist conferences to be held at an early date.

SAVINGS DEPOSITS INCREASE

Berlin, July 17, via London, July 19.—Savings deposits in the Berlin banks increased 10,000,000 marks last month. There are now 850,000,000 depositors, with total deposits of 422,000,000 marks.

TOMPKINS CONFESSES TO KILLING FAMILY

Admits He Killed E. I. Humphries, Wife and Young Son in Their Automobile.

Johnstown, Pa., July 19.—"I killed those three people—I killed them all. I killed Humphries in the corn field. I bought the gun in Johnstown," said George C. Tompkins today as he rose from his chair in the warden's office at the Cambria county jail and walked back to his cell.

Tompkins was accompanying E. I. Humphries, wife and young son in their automobile from Ebensburg to Philadelphia Sunday when the shooting occurred. Driving the automobile into Carrolltown, shortly afterwards Tompkins told a story of a holdup of the party by highwaymen who he said murdered his three companions. He said he had escaped by lying in the road and pretending he was dead.

Tompkins took the bodies of Mrs. Humphries and her son to Carrolltown in the automobile. The body of the elder Humphries was found in a field near the scene of the murder of his wife and son.

Altho, according to the jail authorities, Tompkins confessed to the murder there is still a mystery as to the motive for the triple shooting and it has not been said whether Tompkins in his confession, which was verbal, assigned a cause for the crime.

Humphries, a Philadelphia coal operator, was associated in business with Tompkins.

TELLS WHY TURKEY WITHDREW SPECIAL

BERLIN, Tuesday, July 17, via London, July 19.—Dr. Achmed Emin Bey, editor of the Constantinople Daily Sabah, one of a party of Turkish journalists who are at present guests of the German government, told the Associated Press today that the Turkish government withdrew the special train arranged for Americans who wished to depart from Turkey as the result of a report made by the former Turkish consul-general at New York on his arrival at Constantinople that the American government had refused to permit Turkish students in New York to return with the officials.

Settle Matter Satisfactorily.

Washington, July 19.—Impression that Turkish students were prevented from leaving the United States arose from an ambiguous report on the subject forwarded to Constantinople by a neutral diplomat.

The matter has been arranged to Turkey's satisfaction.

HOLD MAN PENDING ANALYSIS OF PLASTER

URBANA, Ill., July 19.—John Scanlon, about 55 years of age, who says that his home is in Johnstown, Pa., was arrested by Urbana police early this morning, and is being held pending an analysis of the sample of court plaster which Scanlon is said to have been selling and giving away in this city and vicinity the last two days.

While police officials have nothing on which to base their belief, the fact that court plaster has been found to be a germ carrier at Kansas City, and other points in Missouri leads them to suspect Scanlon and his wares.

An analysis of the court plasters is to be made by University of Illinois chemists.

Scanlon was later released from custody, but late this afternoon was rearrested.

NINTH ILLINOIS GOES INTO CAMP

SPRINGFIELD, Ill., July 19.—Companies of the new Ninth Illinois Infantry began arriving here today and went into camp at Camp Lowden where they will be given several weeks of intensive training. The remaining companies will have reached the city before night. Col. C. E. Ryman of Effingham is in command of the regiment, which is drawn from towns in the southern part of the state.

The Ninth Infantry and two other new infantry regiments in process of formation will be available for riot duty after the units of the national guard have left the state.

HAD NOTHING TO DO WITH AWARD OF CONTRACTS

WASHINGTON, July 19.—Replying to assertions made in senate debate that companies whose officials are members of defense council committees profited from government shoe contracts, Julius Rosenwald, chairman of the defense council's commission on supplies, issued a statement tonight declaring that members of the shoe and leather committees had nothing to do directly or indirectly with the award of contracts, and made no recommendations regarding such awards.

Recent contracts for millions of pairs of army shoes, said Mr. Rosenwald, were let by the army quartermaster's department to lowest bidders after sealed bids had been opened in public.

ARREST TWO MINERS.

Globe, Ariz., July 19.—Two Miami miners, both of German birth, were arrested today by special officers of the department of justice and brought to the county jail in this city as alleged alien enemies. In the trunk of one of the prisoners were found two shotguns, a pistol, a considerable amount of ammunition and a certificate of registration with the German consul as a German reserve officer. Neither has been naturalized.

LAY CONVENTION BEFORE PARLIAMENT

London, July 19.—A convention made between the British and the provisional Russian government was laid before parliament today to the effect that British subjects of military age in Russia and Russian subjects of military age here must either return to their own country or serve in the army of the country in which they are residing.

PLANS FOR LOTTERY MATERIALLY CHANGED

(Continued from Page 3.)

10,500 numbers because an exemption district in Lansing, Michigan, has 10,263 registered men. That is the largest district on record here. Seven states have failed thus far to report their maximum districts, however, and 10,500 numbers will be drawn to take care of the improbable possibility that a larger district will show up later.

Alabama, first state on the alphabetical roster of the union, reports its largest exemption district as containing 6,925 registrants. Then in the drawing tomorrow the numbers from 6,926 to 10,500 inclusive, can be disregarded entirely so far as Alabama is concerned.

By the same process Illinois has no interest in numbers above 8,601 nor Iowa above 4,151.

The states whose maximum districts are not yet reported in Washington are:

Georgia, Louisiana, Massachusetts, Mississippi, Missouri, Texas and Vermont.

Issues Second Statement.

Late tonight General Crowder issued a second statement explaining that no blame should be attached to local officials whose failure to shuffle the cards in their jurisdiction caused abandonment of the more elaborate plan. He also pointed out that this failure was not confined to New Jersey but was widespread. "If press reports," he said "are that the situation in New Jersey alone was the sole, or even principal cause of the change in the system of drawing they are not justified. On the contrary, that state has been conspicuous for efficient co-operation with the federal government in all stages of the execution of the selective service law."

Gov. Edge Makes Statement.

Savannah, N. J., July 19.—Governor Edge gave out the following statement tonight in reference to the draft registration cards for New Jersey:

"The report that New Jersey's cards were numbered contrary to instructions is ridiculous. I personally telephoned to the provost marshal's office in Washington and received positive denial that such was the fact or that any such inference had been given out."

ACCEPTS POST OF ACTING PRESIDENT OF CHINA

PEKING, July 17.—(Delayed)—The foreign office announces that Feng Kwo Chang has agreed to accept the post of acting president of China.

There have been conflicting reports from Tien Tsin regarding the attitude of Feng Kwo Chang toward the presidency. One report said that he had refused the position, while another said that he had yielded to Li Yuan Heng's urgent request that he assume that office.

ADD TWO MILLION AND A HALF TO FORTUNE

CHICAGO, July 19.—Two million and fifty thousand dollars in six Chicago banks, most of it in bills of large denomination, were added today thru revelations made in the probate court to the fortune of \$1,000,000 left by the late John N. Stuart, manufacturer of automobile accessories to his two daughters, aged five and fifteen years. This fund was not known to their guardian, who is also a cousin, Leander H. Lachance, till he discovered it in the probate court records. As the girls also came into a cash inheritance of \$690,000 from their mother, who did not long survive her husband, they are among the wealthiest heiresses of Chicago.

MILITARY BOARD ADJOURNS.

East St. Louis, Ill., July 19.—The military board of inquiry investigating the race rioting here in the early part of July has adjourned after a secret session of three days during which it examined more than twenty witnesses. The testimony will be transcribed and transmitted to Governor Lowden and Adjutant General Dickson.

NAME AMERICAN MILITARY SECRETARY

New York, July 19.—Lieut. Col. Campbell Stuart, attached to the British embassy, has been appointed military secretary to the British war mission to the United States and will make his headquarters in New York with Lord Northcliffe.

"FOOD CONSERVATION" AS PRACTICED AT J. S. H.

State Hospital Farms and Gardens are Producing a Large Part of Foodstuffs for Local Use—Labor of Patients Utilized to Large Degree—The Hospital Budget

"Food conservation" is a common term nowadays but nowhere is it practiced more thoroughly, perhaps, than at such institutions as Jacksonville State Hospital where farming and gardening is being carried out on a larger scale than ever before was true. The acreage of most of the food staples is large this season and the favorable nature of the season, together with the intensive cultivation made possible by plentiful labor, will mean larger stocks of food supplies and a greater saving than usual to the state. Dr. E. L. Hill, the superintendent, is a believer in the efficacy of scientific

methods in agriculture and the food crops at the institution this year give strong promise of exceeding all records.

The thirty five acres of potatoes at the state hospital will average a high yield, enough perhaps to supply all needs until the next crop comes on. Corn has been planted between the potato rows and these late maturing stalks will furnish valuable ensilage. Five or six acres are in string beans and there is a larger navy bean acreage.

Canning Vegetables

Vegetable canning is being practiced on a large scale at the hospital this year and by the end of the season it is expected that a supply much larger than the ordinary will be on hand for winter use. Corn, string beans and greens are among the vegetables thus preserved. Spinach and Swiss chard, etc., are put up in five gallon tins, a process which requires double cooking, once in open kettles and again after the cans are sealed.

Facilities for canning will be even better with the completion of the new kitchen, which is now almost ready for use. All cooking operations will then be centralized. The room now used for separate kitchens will be released for other purposes and the presence of all operations under one room will represent a saving both in the matter of food materials and labor.

Gas ranges of the best and largest design are being put in and the new kitchen when in operation will be a model of its kind.

Syrup Manufacture

Six acres of sugar beets on the institution farm represent an interesting experiment which Dr. Hill is making with a view to the manufacture of syrup for use in cooking. The land devoted to sugar beets will in any case be used to good advantage as the tubers furnish the material for nutritious stock feed.

On the farm this year there is a good stand of broom corn from which the superintendent expects to manufacture enough brooms for the next four quarters. The hospital uses about 40 dozen brooms every three months.

The question of food production at the hospital brings to mind the increasing extent to which use has been made of the labor of patients. The industrial supervisor of women has under her direction some five or six hundred patients, who labor in as many ways as any old fashioned housewife. The laundry is operated by five or six regular state employees, with the assistance of about a hundred patients. All the work of pressing is done by patients and women in the two sewing rooms, not only do all kinds of mending but use up the waste materials in the making of caps, gloves, etc.

In the tailoring shop, suits of good quality and workmanship are made. Some fifteen dozen shirts are supplied the storehouse each week by the labor of patients. Rag carpets are made by the women and rugs also. Shoes are shipped here from the Joliet penitentiary, but all shoe repairing is done in the state hospital shop.

Some Expense Figures.

The budget for each institution is made for two years and, as has been true everywhere, appropriations just made have been pared to the bone. None of the state hospital employees have suffered from this situation, however, as the management, by anticipating the situation, was able to distribute the work that the item of wages was kept within the appropriation.

The present budget for salaries and wages is \$149,820 and \$153,760 respectively for the first and second years. The sum of \$3,100 per year is allowed for office expenses and \$1,000 for traveling expenses. The item of operating supplies, etc., is \$208,850 and \$213,650 and the allowance for repairs of the present buildings and equipment is \$25,000 per year.

ARREST MADAME SOUMERSON
Petrograd, July 19.—Military authorities of Pavlovsk have arrested Madame Soumerson, charged with being in close relations with a Maximist named Fuerstenberg, in establishing communication between Petrograd and Germany.

A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame back, rheumatism and irregularities of the kidneys and bladder in both men and women. Regulates bladder trouble in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for sworn testimonials. Dr. E. W. Hall, 2926 Olive St., St. Louis, Mo. Sold by druggists.—Adv.

FRENCH SENATE HOLDS SECRET SESSION

PARIS, July 19.—The senate today convened in secret session to hear interpretations by various senators concerning the French offensive on the Aisne and in Champagne, begun April 16 last, and regarding the medical service during the battles.

The secret session of the senate has been long forecast. Recently the chamber of deputies discussed at length the Aisne and Champagne battles and the ambulance service. Some of the deputies contended that the offensive had been checked. Premier Ribot, who closed the debate for the government acknowledged that the offensive had been costly, but said that, instead of being heeded, it was a real success.

Minister of War Painleve said during the debate that he did not deny serious faults were committed and that the responsible chiefs, among them the commander-in-chief General Neville, had been relieved of command. A resolution of confidence in the government was adopted.

DISCUSS SYSTEMATIC SAVING AMONG PEOPLE

NEW YORK, July 19.—Financial circles of nationwide prominence and representatives of the country's greatest industrial organizations discussed here today systematic saving among the people of the United States to bring to the government during the war the use of funds otherwise not available. It was decided to organize promotion of savings but resolutions bearing upon this subject were not made public. Among those at the conference were A. M. Anderson and T. W. Lamont of J. P. Morgan & Co.; C. L. Close of the United States Steel corporation; J. B. McDougal, governor of the Chicago Federal Reserve bank.

TO INTERN BAUMGARTNER FOR PERIOD OF THE WAR

CLEVELAND, O., July 19.—Fritz Baumgartner, recently superintendent of the Lake Erie Iron Works and a member of several exclusive Cleveland clubs was arrested today at his home by federal authorities on orders from Washington and the announcement was made that he will be interned for the period of the war. Baumgartner is said to have been asked by German interests in South America to head a movement to establish a German arms factory there. He is said to have listed Ohio Germans under the guise of an employment bureau.

ANNOUNCE ATTACK OCCURRED IN DUTCH WATERS

The Hague, July 19.—An official announcement issued by the navy department tonight says the British attack on German steamers July 16 occurred within Dutch territorial waters.

AUTO RACERS TO COMPETE.

Omaha, Neb., July 19.—Ralph Mulford, Ira Vail, Louis Chevrolet and Earl Cooper, winners of this year's chief automobile races will meet on the Omaha speedway either July 28 or August 4, in a championship contest it was announced here today by Fred Wagner, veteran Automobile Association starter, backer of the race. The distance to be run has not yet been decided but probably will be 150 miles.

AGREE TO RESUME WORK

Danville, Ill., July 19.—Members of the Railroad Laborers' Union employed at the Chicago & Eastern Illinois shops here who struck yesterday for an increase of 7½ cents an hour, tonight agreed to resume work tomorrow morning pending a conference between their officers and Receiver Jackson. They are confident their demand will be successful.

HUNGARIAN MUNITIONS FACTORY DESTROYED

Zurich, July 19.—The munitions factory of the Hungarian iron and steel rolling mills at Engesfield, Budapest, was completely burned Sunday, according to word received here. The entire stock was ruined. The damage will exceed a million crowns.

LIGHTNING STRIKES BETWEEN PLAYERS

St. Paul, Minn., July 19.—Harry Legg several times state golf champion and Dick Ordway, 14 year old White Bear golfer, narrowly escaped being struck by lightning today while they were playing in the second round of the Minnesota State Golf Championship tournament. A bolt struck midway between the players but did no harm and they continued their round Legg winning 8 and 7.

APPEAL TO WOMEN TO AID CANNERS

New York, July 19.—An appeal to American women to aid the country's commercial canners by working in factories preserving foodstuffs so that sufficient supplies may be furnished the nation's soldiers and sailors was issued tonight by Mrs. Julian Heath president of the national housewives league to the heads of affiliated organizations throughout the country.

ADOPTS AUTONOMY BILL

Helsinki, Finland, July 19.—The Finnish diet has adopted autonomy bill 136 to 55.

MRS. ROOSEVELT, JR. ARRIVES IN PARIS.

Paris, July 19.—Mrs. Theodore Roosevelt, Jr., arrived from New York today and was greeted by the prefect of the department in behalf of the French government. American naval and medical missions and a number of American ambulance workers also arrived on the same steamer.

WEDNESDAY'S RECRUITS TOTAL 1,276

Washington, July 19.—Regular army recruits yesterday totaled 1,276.

MANY DISEASES RESULT FROM WAR CONDITIONS

Lack of Food and Other Distressing Circumstances Cause Withered Uncommon Maladies—Plague of Mice in Australia

London, July 19.—Many maladies hitherto uncommon in Belgium have been caused by the lack of food and other distressing conditions in that country, writes a resident of Antwerp to his son here. He adds:

"A celebrated doctor tells me that he has many cases of a morbid depression which was before infrequent. Apart from the alarming increase of tubercular trouble there are many cases of scurvy, tumors, skin diseases and digestive troubles, due chiefly to the unchanging diet of soup beans. Mortality has trebled and the number of births has decreased by one half. Medicants are rare and very expensive."

"Everyone is growing thinner and the price of living increases daily. Meat costs \$1.25 a pound and ham about \$1.87 a pound. Milk is very difficult to obtain. The news of the latest British successes has cheered us up very much, and, in spite of everything, we expect your armies here this year. We are all quite confident of the result of the war."

The writer tells also of persons sentenced to three months imprisonment for trying to cross the Belgium frontier and of the arrest of a woman for trying to send a letter to her son in the Belgian army.

Sydney, Australia, July 19.—Mice by the million are overrunning a large part of Australia. They are adding mightily to the war time troubles of the farming community and officials—particularly the former. The havoc they are causing in bagged wheat—for Australia has not the grain elevator system as yet—standing in many rural districts awaiting possible shipment to overseas markets is fast becoming a question of grave national import.

The farmers are faced with huge losses and are beginning to ask whether the federal government fully realizes the extent of the plague and if so what it intends to do to check it. It is said that only those living in the infested districts have a comprehension of the boldness, prevalence and destructiveness of the rodents.

Some idea of the visitation may be gained from the fact that at a small place named Sheep Hills in Victoria a few weeks ago seven tons of mice were killed without any apparent diminution in their number. Farm houses swarm with them and hardly anything is safe from their depredations. Former plagues of the kind are surpassed by this one and hopes that the mice would disappear suddenly are fading. Should their destructiveness continue there may be a famine in seed wheat and a greatly reduced wheat crop aside from the loss already caused in stored wheat.

TAKE UP RE-DISTRICTING.

Chicago, July 19.—Re-districting of the Rock River Methodist Conference was taken up by Bishop Thomas Nicholson and district superintendents at a meeting held at the Desplaines camp meeting today. It is expected a plan will be promulgated at another meeting to be held tomorrow.

MAY ABOLISH CUSTOM.

Berlin, Tuesday, July 17, via London, July 19.—The time honored custom among hotel guests of depositing one's footwear in the corridor outside the door to have it polished is likely to come into disuse for the time being. The growing demand for shoes, even cast offs, has encouraged thefts of footwear in hotels.

INCREASE COAL MOVEMENT.

Washington, July 19.—Reports to the railroad war board show that in June the country's roads moved 750,223 cars of bituminous coal, an increase of 26 per cent over June of last year.

NAME PETTJOHN MANAGER.

Chicago, July 19.—Members of the American Exhibitors association composed of Bolters from the Motion Picture Exhibitors League of America which is meeting here in annual convention today named C. J. Pettjohn, an attorney of New York, as general manager and selected New York as permanent headquarters.

RUSS WARSHIP SINKS U-BOAT.

Petrograd, July 19.—The North and South Agency reports that a Russian destroyer has sunk a German submarine in the Baltic by dropping bombs on it and that the crew of the submarine were drowned.

INCREASE IN WAGES AFFECTS MANY.

London, July 19.—Increase in wages and war bonuses taking effect in May resulted in a total increase of \$227,500 a week and affected more than 290,000 persons.

RUSH ARMED TROOPS TO GUARD BRIDGE

NORFOLK, Va., July 19.—Armed troops were rushed to guard the LaFayette river bridge and Norfolk & Western viaduct of the traction company today when Rear-Admiral A. C. Dillingham, U. S. N., received reports that his lines of communication were in danger of being fired. An attempt to set fire to the viaduct this morning at an attempt would be made to destroy the Tanners Creek bridge either yesterday or today.

About three thousand men are now working at the new naval base at the Jamestown Exposition grounds in Hampton Roads. If the bridge should be destroyed it would mean untold inconveniences in transporting men to and from Norfolk.

REFUSES TO CHANGE NAME.

Chicago, July 19.—The Chicago board of education has refused to change the name of the Bismarck School, despite petitions of Polish and Bohemians, residents of the neighborhood, whose children form a large part of the school's attendance.

CHEER BELGIAN MISSION.

Pueblo, Colo., July 19.—The Belgian war mission was cheered thru Colorado today. It was almost the busiest day since the mission started its Thanksgiving tour of the country July 1. Denver, Colorado Springs and Pueblo were visited and each welcomed the guests with cordial western hospitality.

INVITE U. S. TO TAKE PART IN CONFERENCE

WASHINGTON, July 19.—The United States has been officially invited by the Allied governments to participate in the Inter-Allied conference to be held in Paris some time this month, but has decided that for the present it will not be necessary to take part in such meeting not directly affecting this country's part in the war.

It was officially explained at the state department that while this course was followed at present, it was not to be taken as an indication of a permanent policy.

PREPARE TO HONOR FLEET

Buenos Aires, July 19.—The American fleet under Admiral William B. Caperton is due to arrive in Buenos Aires next Tuesday and preparations are being made for a great popular demonstration in honor of the American commander and his men.

OIL TANK EXPLODES BY STROKE OF LIGHTNING

DRUMWRIGHT, Okla., July 19.—Several houses were destroyed and 2,000 people were temporarily driven from their homes here today when a 55,000 barrel oil tank on the outskirts of the town was exploded by a stroke of lightning. Hundreds of men with spades hurriedly threw dirt dams across the path of the burning oil to keep it from the business district. The loss here was estimated at \$167,500.

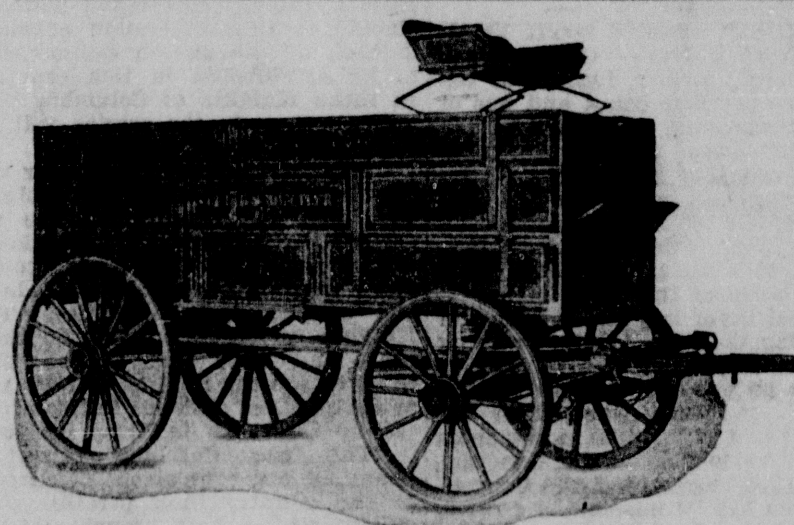

Three other oil tanks in the Oilton field near here also were destroyed by lightning involving a loss of nearly \$500,000.

Walter B. Miser formerly General Manager of the Illinois Traction local utilities is now a resident of Drumwright, being General Manager of the gas and electric companies of that city.

Ventilating Porch Shades

Keep the Hot Sun Out
Let the Cool Breeze IN

No porch need now be hot and uncomfortable. These new Ventilating Porch Shades reduce temperature 10 degrees on hottest days.

Real ventilation is the secret! Air is not retarded as with old style, heavy awnings and shades. Nothing so delightful and cool as the Aerolux porch.

Beautiful—Durable—Artistic

Aerolux Ventilating Porch Shades are made of rustic Linwood. They last for years—defy weather—need no attention. When rolled up cords are cut of sight. Patented "No-Whip" attachment prevents flapping in the wind. Aerolux Ventilating Porch Shades will give you absolute comfort. Compared with service given they are the most economical you can buy.

We carry a complete line of Aerolux. Variety of beautiful permanent colors. Sizes to fit any porch opening. Come in today and see them or ask to have our representative call with samples.

A MILLION MEMBERS FOR ILLINOIS RED CROSS

Plans for Final Drive Will be Made Monday at Springfield Conference.

Lines for a final smashing drive to bring Illinois' memberships in the American Red Cross past the million mark will be drawn at a meeting Monday, July 23, of the executive committee of the Illinois Red Cross headquarters, 112 W. Adams street, Springfield.

Former Governor Richard Yates, chairman of the committee, will preside. The former governor has recently been appointed as assistant attorney general of Illinois but stipulated in his acceptance that he must be allowed a week, before taking up his tasks, for a tour of the state in the interests of the membership campaign in Illinois.

Encouragement of the counties which have been slow in organizing their membership campaigns will be considered at the meeting. Men and women in close touch with the great task the war has brought upon the Red Cross will be sent thru the state to inform the people that their aid must be given if the soldiers sent to the front are to be cared for in their need.

District conferences of local chapter officers and Red Cross leaders will also be arranged to aid in arousing enthusiasm for the final push. The necessity for mobilizing every available resource behind the work of caring for the lives and limbs of the men who face death for their country will be brought home at these gatherings.

CHAUTAQUA SUBSCRIBER'S TICKETS NOW READY

Get your tickets now.

Last year subscriber's tickets went to a premium. Many who had them for sale sold out long before the assembly opened. In 1915 and 1916 one thousand more subscriber's tickets were issued than will be issued this year.

The management will sell to subscribers adult's season tickets at \$1.50 and child's season tickets at \$1.00 until the subscribers' allotment is exhausted, and after that will sell no adult's season tickets for less than \$2.00. Subscribers should secure their tickets of the Secretary and not from other subscribers.

Get your tickets now.

Reserve your tents now.
A. C. Rice, Secretary.

JOURNAL TO POST DRAFT NUMBERS IN WINDOW

In order to secure prompt returns on the drawing to fix liability for military service in Washington today, the Journal's leased Associated Press wire will open at 8 o'clock this morning. The drawing is to start at 8:30 o'clock, Central Time, and the numbers will be posted in the Journal's window as fast as they are drawn.

GRIGGSVILLE BANKER PASSED AWAY THURSDAY

Final Summons Comes to George Cairns Following Several Months' Illness—Was President of Illinois Valley Bank—Funeral Saturday.

Griggsville, July 19.—George Cairns, prominent banker of this city died at his home this morning at 11:45 o'clock after an illness of several months. He was born in May, 1858, in this county, 58 years ago and had resided in the county all his life. He was married 37 years ago to Miss Margaret White, who survives, together with two brothers and two sisters. For many years Mr. Cairns followed the occupation of farming with great success. He retired from active farming a number of years ago and removed to Griggsville. He was president of the Illinois Valley bank and of the Illinois Valley Fair association. Funeral services will be held from the residence Saturday morning.

FISH AND CHICKEN FRY

Given by the Concord M. E. Ladies' Aid August 9th, in the basement of church.

GEN. PRYOR BEGINS 90TH YEAR

New York, July 19.—General Roger A. Pryor, former justice of the New York supreme court and one of the last surviving members of the first Confederate States Congress, entered upon his ninetieth year today, having been born July 19, 1828, in Dinwiddie county, Va. At his home in West 69th street Gen. Pryor received birthday greetings from a wide circle of friends.

General Pryor has had a long and interesting career. After finishing his education at the University of Virginia he was admitted to the bar in 1849, and then was editor for several years of Virginia newspapers. He was twice elected to Congress, and in 1855 represented the Government on a special mission to Greece. Not only was he a member of the first Confederate States Congress but he fought with distinction in the field, rising to the rank of brigadier general.

One of General Pryor's favorite reminiscences is how his life was saved by President Lincoln. He was captured as a spy while serving, under special direction of General Lee, in cutting wires by which Lincoln maintained his communication. He was imprisoned in Fort Lafayette, N. Y., and saw a companion led out and hanged. He was to receive similar treatment, but President Lincoln relieved him because, while a division commander, he had paroled 3,000 members of Pope's hospital camp and sent them to Washington instead of to Andersonville Prison.

WICHITA BISHOP 70 YEARS OLD

Wichita, Kans., July 19.—Rev. John J. Hennessy, for thirty years bishop of the Catholic diocese of Wichita, received a flood of congratulations today on the occasion of his seventieth birthday anniversary. Bishop Hennessy is a native of Ireland, but has resided in the United States since early childhood. Prior to becoming bishop of Wichita in 1888 he was rector of St. John's church in St. Louis.

CATHOLIC KNIGHTS TO AID IN CAMP WELFARE

Organization Designated by War Department to Act With Y. M. C. A. in Army Work.

Local Knights of Columbus have received the following circular letter:

"The designation by the war department of the Knights of Columbus as the official agency for looking after the moral and social welfare of the Catholic men of the army and navy has placed upon the order a great responsibility. Not only every member of the Knights of Columbus but every Catholic man and woman in the country should recognize this responsibility and do their share in assisting the Knights to look after the welfare of our soldiers and sailors. The action of the war department in designating the Knights of Columbus as the channel thru which the moral and social welfare of the soldiers and sailors will be looked after has the hearty endorsement of the three American Cardinals and the entire hierarchy of the church in the United States.

Work Has Proven Efficient.

"The selection of the Knights of Columbus as the official agency of Catholic service in the army and navy is a direct result of the efficient work done for the soldiers on the Mexican border. In selecting the Knights of Columbus for this great work the war department places the great Catholic fraternity on the same basis as the Y. M. C. A., which takes care of all the non-Catholic religious and social welfare work in the army and navy. The Knights of Columbus will work in cooperation with the official Catholic chaplains and will also have to pay the expenses of many other unofficial chaplains. The Knights will have to erect Catholic centers and suitable places for the celebration of mass in each of the sixteen cantonments to be established in this country. In these Knights of Columbus centers all men in the service will be made most heartily welcome.

"This is the largest task ever undertaken by the Knights of Columbus, and as already said, the responsibility is very great. No doubt the knights will vindicate the confidence reposed in them by the federal and ecclesiastical authorities. The Knights of Columbus will do their share and every other Catholic person will see the need as patriots and as Catholics of assisting in this work.

Many Catholics in Army Service.

"The Catholics constitute about 20 per cent of the population of the country, their percentage of enlistments in both branches of the service, it is stated, is more than 30 at present and will exceed 40 per cent when the new army will be assembled in September. As a consequence Catholics throughout the country feel the grave responsibilities placed upon them to safeguard the social and moral welfare of their co-religionists. The war department has cheerfully accepted the offer of the Knights of Columbus to give all possible assistance to their fellow Catholics the same as the Y. M. C. A. will do for non-Catholics. These two organizations performed excellent work on the Mexican border and the success of their experiment there prompted the war department to allow the present arrangement, which means that the Knights of Columbus will act as the agent of all Catholic societies and the Y. M. C. A. will direct the work of all Protestant organizations."

OUR ANNUAL JULY CLEARANCE SALE The Sale of Sales and the sale you profit by. Now Going On. RABJOHNS & REID

FINED FOR ASSAULT AND BATTERY.

Mrs. Adelia Roberts of Chapin was fined \$10 and costs in Justice Coons court Thursday on the charge of assault and battery. The complaining witness was Jacob Hoover also of the vicinity of Chapin.

On Wednesday Mr. Hoover paid a fine of \$3 and costs on the charge of assault and battery, the complaint being preferred by Mrs. Roberts. The arrests and payment of fines grew out of an altercation alleged to have taken place the first of the week between Mr. Hoover and Mrs. Roberts. It is said that Hoover who is related to Mrs. Roberts by marriage went to the Roberts home to water the hogs. According to Hoover's story Mrs. Roberts ordered him off the place and then struck him with a piece of hose. Mr. Hoover acknowledged that he lost his temper and spanked Mrs. Roberts with a board. In the trial Thursday Mrs. Roberts was represented by W. T. Wilson and J. O. Priest, while State's Attorney Carl E. Robinson appeared for the people.

Our pendant ear rings in amethyst, topaz, sapphire, crystal, pearl and gold filagree will please you.

MOTION FOR NEW TRIAL OVERRULED IN PAVING CASE

Arguments of attorneys of objectors to the loop district paving on the motion for a new trial were heard by Judge Thomson in the county court yesterday. After hearing the arguments Judge Thomson overruled the motion except as to the property of George Jameson. The assessment on this property was \$54.50 and the court ordered the city to reduce the assessment to \$500. It is not known whether or not the objectors will take an appeal to a higher court. However, one property owner who contributed to the fund to cover the costs of the suit was heard to say that he would not furnish further funds in the case.

W. H. Anderson was in Quincy on Thursday to attend the races. Clark Green has several local horses entered at the meet.

WINCHESTER DRIVING CLUB HOLDS RACES

Some Good Times Made on Race Track Thursday Afternoon—Other Scott County Notes.

Winchester, Ill., July 19.—The matinee races of the Winchester Driving club were held this afternoon and, altho attendance was not up to the best records, interest in the event was good and some good times were made. Half mile heats were used. The purses were for \$15, \$7, \$5 and \$3, for the first, second, third and fourth. The events:

2:40 Trot.
Lady French (Roy Grady) . . . 1 1 1
Dorothy Smith, (Edgar Smith) 2 2 2
Hazel Dell, (Chas. A. Neal) . . . 3 3 3
Time: 1:26, 1:29 and 1:25.

2:25 Pace.
Dan Mac (Wes Henson) . . . 1 1 1
Nellie Powell, (Geo. Andrews) 4 5 5
Minnie C. (C. Strawn) . . . 2 3 3
Tony Mac (H. Davenport) . . . 3 2 2
Dixie M., (Means) . . . 5 4 4
Time: 1:13, 1:16 1-4.

2:19 Trot.
Sterling Dillon (Wm. Elliott) . . . 1 1 1
Early Reaper (A. Tankersley) 2 2 2
Lady French, (Roy Grady) . . . 3 3 3
Time: 1:19, 1:16 and 1:16.

Young ladies of the Red Cross served refreshments during the races. Their receipts totaled thirty-five dollars.

Winchester Personals.

Mrs. Fred Birk has returned from a short visit in Beardstown.

Mrs. John Donacher of Jerseyville arrived Wednesday for a visit with Miss Leah Cowper.

Dale Owings of Galesburg is visiting his parents, Mr. and Mrs. George Owings.

DR. P. H. GRIGGS SAYS—OVERLAND TOURING BEST

The Claus Overland Co., today sold to Dr. P. H. Griggs, for immediate delivery, a five passenger Overland touring car. Dr. Griggs has run several makes of cars, but declares his belief, after considerable investigation, that the Overland is the best all purpose car on the market today.

ALEXANDER GOOD ROADS MEETING WELL ATTENDED

Committee Appointed to Take Up Matter of Extension with the Burlington Way Officials.

The road meeting held Thursday evening in the park at Alexander was well attended, with a large number present from the Alexander vicinity as well as the visitors who motored out from Jacksonville. Speeches were made by members of Jacksonville and the program as announced was carried thru, with addition of brief remarks by Judge W. E. Thomson and a reading by Miss Esther Spoons.

It was decided to take up the matter of extending the Burlington Way thru Alexander to Jacksonville by taken up with the highway officials. As mentioned before the New Berlin-Springfield portion of the Morton road is already part of a Burlington Way division and the extension would thus serve to connect up branches already laid out. The committee appointed to lay the case before the officers at a meeting next Monday in Springfield consists of Charles Magill, John Snyder and F. J. Kaiser.

Those who were on the program Thursday night for the addresses were Carl H. Weber, president of the Burlington Kay; John J. Reeve, chairman of the chamber of commerce; Carl E. Robinson, Mayor H. J. Rodgers and Rev. W. E. Spoons. The oiling of the Springfield road between Alexander and Jacksonville has already been arranged for. From the funds of the highway district and by subscription of land owners enough was raised to oil the entire stretch between Jacksonville and Alexander and between Alexander and Franklin and the work will proceed as soon as the oil arrives.

CHAUTAQUA TENTS

Owing to changes on the grounds, those who have heretofore spoken for tents should confer at once with the Secretary as to location of tents.

MILITARY CAMP NAMES HONOR AMERICAN HEROES

Army Cantonment at Rockford will be known as Camp Grant—Other Titles Chosen

Washington, July 19.—Names of American military heroes of past wars, including several Confederate leaders, have been given by the War Department to the thirty-two cantonments in which the national army and the National Guard will be mobilized for training.

In announcing the designations tonight the department revealed that the subject had been given consideration by a board of officers headed by Brigadier General Kuhn, chief of the war college division, and that selections were governed by a carefully prepared policy. In each case the name selected is that of a man from the section represented by the troops concerned, but not unpopular in the vicinity of the camp. Short names are chosen for convenience, names like Washington and Lincoln were omitted because of the temporary nature of the camps and other names were avoided because they are duplicated by prominent men now living.

The names chosen follow:

National Army
"Camp Deveness," Ayer, Mass., for troops from Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut. After Brigadier General Charles Deveness, U. S. V., a native of Massachusetts.
"Camp Upton," Yaphank, Long Island, for troops from the metropolitan portion of New York City. After Major General Emory Upton, U. S. V., a native of New York.

State of Ohio, City of Toledo.

Frank J. Cheney makes oath that he is senior partner of the firm of P. J. Cheney & Co., doing business in the City of Toledo, Ohio, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE. FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886. A. W. GLEASON, Notary Public. (Seal)
Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surfaces of the System. Send for testimonials, free.

SAVE BEETS FOR WINTER.

Useful Points Suggested in Interest of Food Conservation.

Washington, D. C., July 19.—Now is a good time for garden owners in many sections who have more beets of the early crop than they can eat in the fresh form and an abundance of glass jars and tin cans, to can baby beets, says the United States Department of Agriculture.

How to Can Baby Beets.
Grade for size, color and degree of ripeness. Wash thoroughly, use vegetable brush. Scald or blanch in hot water sufficiently to loosen the skin. Dip quickly into cold water. Scrape or pare to remove skin. Pack whole vegetables, slices, or cross-section pieces in hot glass jars or tin cans. Add boiling hot water until full. Add level teaspoonful salt to quart. Place rubbers and tops of jars in position; partially seal, but not tight. Cap and tip cans completely. Place on false bottom in a vessel of hot water which just covers the containers. Sterilize at boiling temperature in hot water bath canners for 90 minutes.

Drying Beets.
If the early crop of beets is abundant but jars or cans are not available, the surplus young beets may be dried for winter use.
Select young, quickly grown, tender beets. Wash, peel raw, slice about 1-8 inch thick, and dry over a stove, before an electric fan, or in the sun. The dried product may be packed in paper cartons, in paraffined paper bags, baking-powder or coffee cans, or other containers which will exclude moisture and insects.

CLEAN AND REUSE

OLD PARAFFIN
Washington, D. C., July 19.—Paraffin that has become unclean thru usage in canning and preserving, may be cleaned and reused. Don't throw it away because dirt and trash have become mixed with it. Many times paraffin can be cleaned with a brush in cold water. If this does not remove all the dirt, says a specialist of the United States Department of Agriculture, heat the paraffin to boiling and strain it thru two or three thicknesses of cheese cloth placed over a funnel. Or a thin layer of absorbent cotton over one thickness of cheesecloth may be used as the strainer. One straining should be sufficient ordinarily but if the paraffin still is unclean heat and strain again. Any paraffin lodging in the strainer may be recovered by heating the cloth and pouring off the hot liquid to another strainer.

PATROLMAN BAKER

RETURNS HOME.
Patrolman Frank Baker, who was shot while assisting in the arrest of George Price several weeks ago has recovered sufficiently to leave Our Savior's hospital and return to his home. Mr. Baker's injuries were very painful and it probably will be some time before he will be able to resume his police duties.

Charles C. Judy of Tallula was calling on friends in the city Thursday.

YOU WON'T STOP DRINKING

UNTIL THE POISON of alcohol "stored up" in your system is eliminated. The "Neal Way" acts as an antidote for the poison and eliminates it from the system. THE U. S. MAY ADOPT DAYLIGHT SAVING PLAN

Would Contribute Immensely to National Efficiency and Economy—Bill Authorizing Setting of Clock Ahead One Hour Has Passed Senate

Washington, D. C., July 19.—There appears to be a strong probability that the United States may soon adopt the daylight saving plan as a war measure. The Calder bill, authorizing the setting ahead of the clock one hour during the summer, has already passed the senate. This bill provides that after Jan. 1 next, the standard time of each zone shall each year be advanced one hour, between the last Sunday in April and the last Sunday in September. In the house of representatives two bills for a similar purpose have been introduced, one by Representative Carlin of West Virginia and the other by Representative Borland of Missouri.

The adoption of the daylight saving plan is urged by the United States Chamber of Commerce, on the ground that it will contribute immensely to national efficiency and economy. More than a dozen of the European nations have found the plan highly beneficial in practice, and many leading business men and commercial and trade organizations in United States have expressed the belief that the same advantages would be gained here.

Has Many Advantages
As a war-time measure the daylight saving plan has been adopted by Great Britain, Germany, France, Russia, Italy, Austria, Holland, Denmark, Norway, Sweden, Portugal, Australia and Iceland. In England a committee of the House of Commons, which made a preliminary study of the question for two years, reported that it would have many advantages. Chief of these, the report stated, would be the promotion of the greater use of daylight for recreation purposes, lessening of the use of houses licensed for the sale of intoxicating liquors, facilitation of the training in the territorial force, reduction of industrial, commercial and domestic expenditures for artificial light and the advancement of the general welfare of all classes of the community.

Accordingly the committee recommended that an alteration of the clock of one hour in April and a similar alteration of one hour in September be made. The Central Committee for the Disposal of Coal unanimously passed a resolution urging the Government to adopt the daylight saving plan in order to conserve the coal resources of the nation. It was estimated that the savings in the use of artificial light and fuel for the summer months only, in England, would be as high as \$2,500,000.

In France the adoption of the daylight saving plan was estimated

to reduce the amount spent for coal and gas and electric light undertakings by at least \$2,000,000 for the summer months. In Germany a great reduction in the amount of gas consumed has been recorded. Russia has put the plan into effect only within the past few weeks, so reports on the results in that country have not been received.

Great Saving in Coal Bills
For the United States, daylight saving as a war measure would mean a saving of \$40,000,000 annually in coal bills alone, according to reliable estimates. A special committee appointed by the Boston Chamber of Commerce to investigate the subject places the total saving for the nation as high as \$100,000,000 a year. These estimates are not mere guesswork. They are based largely on the indisputable fact that the city of Cleveland, where the daylight saving plan has been in successful operation for several years, saved \$200,000 in the first six months' operation of the plan.

In its effects upon the food problem, the daylight saving plan, it is pointed out, would allow 20,000,000 workers in trade, transportation and other pursuits outside the field of agriculture to use an extra hour of daylight for work in gardens and fields. The National Emergency Food Commission is inspiring and aiding the planting of 1,000,000 food gardens in cities, towns and villages. Daylight saving would mean a tremendous impetus to this movement. In the summer a cool hour of the morning will be substituted for a warm one of the afternoon, in industry, which will contribute to efficiency. Workers will be able to spend more time outdoors after the workday is over, and this will mean better use of recreational facilities, as well as more work in gardens.

JACKSONVILLE JOURNAL COMPANY

END VISIT IN MURRAYVILLE
Thomas Ramsey, and friend, Byron Johnson, who have been visiting at the home of Mrs. Ramsey's mother in Murrayville, have returned to Virginia. The visit was made especially on account of the draft which is soon to take place, and Mr. Ramsey felt that he might not have another chance to visit home before he was called into service.

Charles Darling of Franklin was called to the city on business yesterday.

GARDNER SCORES WINNING RUN
IN SIXTH.

Chicago Scores Its First Run in
Fourth and the Second in the
Ninth on a Triple by Risberg and
Schalk's Single—Detroit Blanks
Yank'es.

Chicago, July 19.—Boston defeat-
ed Chicago 3 to 2 in the first game
of the series for the pennant. Gar-
dner scored the winning run in the
sixth inning. Chicago scored its first
run in the fourth. E. Collins walk-
ed and was forced by Jackson. Feisch
followed with a double scoring Jack-
son. In the ninth Risberg tripled
and scored on a single by Schalk.

President Garry Hermann of the
Reds was a happy "Bill" during the
Elks' convention in Boston. Besides
enjoying the B. P. O. E. festivities
the Red Boss saw his hirelings clean
up the Braves.

Cobb, the leading hitter, run-get-
ter and base-stealer, and Boland, who
stands among the leading American
league pitchers, are the only Detroit
pastimers to distinguish themselves
so far this season.

BRAVES AND PIRATES
SPLIT SIX GAME SERIES

BOSTON, July 19.—Cooper held
Boston to four hits today enabling
Pittsburgh to win 6 to 1 and to split
even in the six game series. Presi-
dent Haughton of the Boston club
presented Honus Wagner with an
elaborate fishing outfit. In the first
inning, Ballinger, sporting editor for
the Pittsburgh Post while standing
in the press box received a broken
nose when a foul ball struck him.

Score: R. H. E.
Pittsburgh . . . 122 100 000—6
Boston . . . 010 000 000—1
Batteries—Cooper and Fischer;
Barnes, Ragan and Traggessor.

BANKERS WIN IN
FIFTH INNING

One of the most exciting games
in the Twilight League was played
between the Press and the Bankers
at State Hospital grounds Thursday
evening. The Bankers by a great
fifth inning rally overcame a four
run lead and by scoring five runs
and blanking the Press team in its
half of the fifth brought home the
bacon. The Press club got a flying
start in the first inning when they
scored nine runs off Flynn of the
Bankers. The score:
Bankers . . . 25 105—13
Press . . . 9 0 120—12
Batteries—Bankers, Flynn, Keil
and Cooney; Press, Jones, Dooling
and Crim.

RAILROAD TRAFFIC
RESTRICTIONS DRASTIC

Rotterdam, Netherlands, July.—
Fewer trains and higher fares are the
order of the day in Germany. The
restriction of railroad traffic is very
drastic. Whereas formerly 29 trains
ran in each direction daily between
Berlin and the west, now there are
only 13. Between Berlin and the east
previously there were 13 or 14
connections; now the number is lim-
ited to 5 or 6.

The increased railroad fares will
become effective January 1, 1918,
and are in addition to the tax on re-
served seat-tickets, which already
amounts to 16 per cent for first class,
14 per cent for second, 12 per cent
for third and 10 per cent for fourth
class tickets. The general increase
in fares will be 10 per cent.

K. B. Clark was a visitor in the
city yesterday from Chicago.

Why Fatima is today the only
high-grade cigarette at a moderate price
20 for 15¢

Fatima does NOT give you

- a wasteful, costly box.
- or fancy, expensive tips.
- or "showy" packing or frills.

But Fatima DOES give you

- a perfectly balanced Turkish
blend—comfort while you smoke
and afterwards, too.
- absolute purity.
- more sincere quality, better to-
baccos and more quantity for
the money than any other high-
grade cigarette on the market.

Remember, that in addition to purity, good taste and
big value, Fatimas offer you something else—they are cool
and friendly to your throat and tongue, and they leave you
feeling keen and fit even though you may smoke more
often than usual.

Liggatt & Myers Tobacco Co.

In these times, you want full value—smoke Fatimas.

FATIMA
A Sensible Cigarette

INTERESTING NEWS
OF THE SPORT WORLD

(By Associated Press.)

Des Moines, Ia., July.—With the Des
Moines and Lincoln clubs the leading
contenders for premier honors, the first
half of the Western league's split season
will end July 22. The second half will
start July 24, and the winner of this lap
will meet the first part leader for the
1917 league championship.

Division of the season's schedule was
decided upon by club owners in order
to revive interest in cities with teams
low in the percentage table. Seventy
games constituted the schedule for the
first half, and it is expected approxi-
mately the same number will be played
in the final half.

Des Moines and Lincoln have a mark-
ed lead over the other clubs, with about
275 points separating the tall endere
from the leaders. Wichita is hopelessly
in last place for the first half, nearly
30 points behind St. Joseph, one rung up
the percentage ladder.
Club owners expect second division
teams of the first half to show new
"pep" in the second lap, with an oppor-
tunity at the 1917 championship revived.
The final championship series will be
for four victories, and games will be
divided between home cities and the two
division champions.

Des Moines has climbed to the top of
the league through its defensive play-
ing—strong pitching and fielding. Lin-
coln's work has been marred by poor
fielding, but good pitching has pulled
many games out of the fire. In its
hurling department, principal reliance
has been placed on Jack Halla and How-
ard Gregory.

Detroit, July.—Enthusiasts of the trot-
ting sport are wondering whether bet-
ting will be allowed at the Grand circuit
races in Detroit late this month. It
has been reported that the action of
the Ken. county authorities in prohib-
iting betting at the Grand Rapids running
races, recently, might cause Detroit of-
ficials to stop betting at the Grand cir-
cuit meeting.

The race track at the Fair Grounds
is now inside the Detroit city limits. Un-
til this year, the Fair Grounds has been
subject to the jurisdiction of the Wayne
county authorities.

St. Louis, July.—An open four-oared
crew race for the national championship
will be held on the Mississippi River
under the auspices of the Century Boat
Club, Sunday, July 29. Invitations have
been sent to all recognized rowing clubs
in the country.

of the club which last won the race.
It is to be held annually, the last Sun-
day of July. The distance of the event
will be one and one quarter mile up-
stream.

Ann Arbor, Mich., July.—Ernest All-
mendinger, former All-Western guard, is
another University of Michigan athlete
to answer his country's call. Allmend-
inger lives here and has enlisted in I
Company, Thirty-first Michigan Infantry.
The enlistment of the gridiron star re-
calls an interesting story. Allmendinger,
a young giant, in perfect physical con-
dition, tried unsuccessfully for two years
to make the varsity eleven. His quiet
temperament was the handicap and dur-
ing these years Coach Yost declared that
if Allmendinger "could get good and mad
once" he would be one of the greatest
linemen in the game.

The third season Yost became desper-
ate. He used the third degree methods
and, finally the giant awoke. Allmend-
inger became a demon on the gridiron.
Nearly every Western critic put him on
their All-star elevens and some experts
thought he should have made the All-
American.

Des Moines, Ia., July.—When Earl
Smith, outfielder of the Omaha Western
league team, goes to the St. Louis
Americans next year, it will be his sec-
ond journey into major league company,
and his friends are hoping it will have
better results than did the initial trip.
Smith, who has been performing credit-
ably in left field and brilliantly with
the bat for Omaha, was sold to the Chi-
cago Nationals last fall, but failed to
produce and was returned to Omaha.
This is his third year with Omaha and
his batting this year has been above
350 since the season opened. Most of
the time he has been leading the league
and has climbed as high as .328 recent-
ly. He is 22 years old, and is said to
have brought \$5,000 from the Browns.

Cleveland, July.—Because the salary of-
fered by the Elmira Club of the New
York State League was about half as
large as the amount he was drawing
from the Cleveland Americans, Marty
Kavanaugh has declined to join the east-
ern club. He plans to play semi-pro ball
with a Detroit independent team until
some club offers to pay him what he
considers his services are worth.

St. Louis, July.—Branch Rickey, presi-
dent of the St. Louis Nationals, wants
to sign Olef Hendricksen, former out-
fielder with the Boston Americans, but
declines to pay the veteran a bonus for
coming to terms.

Hendricksen is merely a good hitter,"
Rickey said. "He is not a good fielder
or base runner. Boston made him a free
agent, and yet he wants a bonus. He's
not worth that to me."

Pinch hitting is the job Hendricksen
will fill if he comes to the Cardinals.
St. Louis, July.—The remarkable pitch-
ing of Allen Sotheron of the St. Louis
Americans probably will earn him a sub-
stantial salary increase for 1917. As this
is his first year in the majors, Sotheron
is receiving a very "modest" salary. He
came to St. Louis from the Salt Lake
club of the Pacific Coast league last
spring.

Detroit, July.—Another Detroit mascot
has come and has departed. When the
local American league club started its
great Eastern drive the first of June,
considerable credit for the fine showing
was given to a dusky bat-boy from the
Southland. His name was Alex Rivers
and his home was in New Orleans.

Rivers made the Eastern trip and re-
turned to Detroit with the club. Then
the Tigers' wavered—Cobb's hitting
streak was broken—and had Luck come
adverse conditions continued, so one
day Mr. Rivers was deported. Since then
the Tigers have won and lost spasmodi-
cally.

Fort Dodge, Ia., July.—Eight hits for
seventeen bases in eight times at bat in
one day was the performance of Outfield-
er Martini of the Charles City club of the
Central Association in a recent dou-
ble-header with Fort Dodge. In the morn-
ing cent he produced three singles in
as many times up, and in the after-
noon he smashed out three home runs
and two singles in five times at bat.

Detroit, July.—Clark Griffith, manager
of the Washington Americans, is consid-
ered one of the hardest losers in baseball.
And Griffith's friends say he hates to lose
an argument about as much as he dis-
likes to drop a ball game.

Washington recently lost a game to
Detroit because of a close decision which
gave Cobb a base on balls. O'Laughlin
was the umpire.
Griffith met O'Laughlin and his part-
ner after the game.
"You two highwaymen looked fine in
there today," said the National's man-
ager.

"What's the matter, Griffith?" asked
"Bilk."
"That third strike you missed on Cobb
cost us the game, that's all."
"You're wrong, my boy, you're wrong.
I never made a mistake in my life."
chirped O'Laughlin and he moved away
leaving Griffith speechless.

St. Louis, July.—Theodore "Ted"
Drewes, the Central states new tennis
champion is only 19 years old. He start-
ed playing in 1911. In addition to the
singles championship, Drewes also holds
the title in the doubles with Fred Jos-
ties, another St. Louis player.

Des Moines, July.—Clark Griffith, man-
ager of the Washington Americans, has
his eye on several local Western league
players. He has notified Tom Fairweath-
er that he is going to "look them over"
personally soon.

Milwaukee, Wis., July.—President
Timme of the Milwaukee club of the
American Association considered that he
put through a good deal in selling Pitch-
er Marvin Goodwin to the St. Louis Na-
tionals.
Goodwin, one of the pitching marvels
of the season, probably will be drafted
for military service, as he is an expert
telegraph operator and has no depend-
ents.

club. Ehmkke has beaten the World's
Champions three times this season and
in these games, his opponents have col-
lected but one run.

THREE FAVORITES
WIN AT CLEVELAND

Competition Proves so Keen That
The Trotters and Pacers are
Forced to Extend Themselves.

vorites won at today's North Ran-
dall Grand Circuit meeting and the
competition was so keen that the
trotters and pacers were forced to
extend themselves.

A new season's trotting mark of
2:08 1/4 was set by Mabel Trask in
her first appearance of the year, in
the first trotting of the Jackpot
Stakes. Adoo Guy winning the 2:08
pace covered a mile in 2:03 1/4, es-
tablishing himself as the season's
fastest pacer.

Royal Mac, second choice, won the
Tavern "Stake" and in the second
division of the Fasig stake, Har-
vest Tide romped away from the fa-
vorite.

Summaries
The Tavern Stake, 2:14 class trot-
ting; value \$3,000. Royal Mac,
(Murphy) won; Early Dreams, sec-
ond; W. J. Leyburn, third; best time
2:07.

Fasig Sweepstake. Three year old
trot; value \$2,500. Harvest Tide,
(McDonald) won; Trujillo, second;
Khorassan, third. Best time 2:11 1/4.

Jackpot Sweepstakes, 2:06 or
better, trotting; value \$1,600. Ma-
bel Trask, (Cox) won; St. Frisco,
second; Zomrect, third. Best time
2:04 1/4.

2:08 class pacing; purse \$1,000.
Adoo Guy, (Gray) won; Peter Look,
second; The Savoy, third. Best time
2:03 1/4.

2:17 class pacing; purse \$1,000.
John R. Baden, (Thomas) won;
Minnie Anne, second; Ardelle, third;
Don F. Abbe Bond, Baymar, Spy
Direct, Bingo, Pat H. Al McKinney,
Olive R., and Marjorie Kay also
started. Best time 2:07 1/4.

Losing three game in a row to
Cleveland was about the saddest
blow that has befallen the Red Sox
this season. The world's champions
were all set to regain first place
when the Indians tommyhawked
them.

THE MAN-MADE DAYLIGHT OF

Warner-Lenz

Or the dangerous, criminal glare of the ordinary lens.

The Warner is the most scientifically constructed daylight lens known—176 lenses in one.

Rival lenses argue other theories, but engineers don't accept them. One needs an all-embracing light, and the Warner-Lenz gives that. Warner-Lenz light is the same in every position. Turning of the lens in the door of your headlamp does not affect it, nor does rise and fall of the car.

EFFORTS TO ENTERTAIN SOLDIERS NOT FAVORED

Indianapolis, Women Advised to "Leave Them Alone"—No Objection to Letter Writing if Missives Are Devoid of Sentimentality.

Indianapolis, July 20.—Efforts of Indianapolis women to provide entertainment for the student officers from West Virginia, Ohio, Kentucky and Indiana, and soldiers at Fort Benjamin Harrison, near here, have been given a more or less chilly reception by the army officers in charge of the camp, and Brig. Gen. Edwin E. Glenn, in command of the 11,000 men at the Fort in three words has told the women what to do. He said, "Leave them alone."

The advice was given to the women at a meeting held to discuss what to do to entertain the candidates and soldiers, Gen. Glenn was invited to give suggestions. His advice was unexpected. Gen. Glenn also has been conducting, for sometime a campaign to keep young women and girls without chaperons from the camp.

Although the efforts of the commanding officers along that line have met with some success, as yet no ways have been devised to keep women and girls from writing to the student officers. Every day hundreds of letters are received by the young men from women they never heard of before. Most of the letters are of the so-called romantic type, but occasionally one of a different kind is received.

The objection to letter writing to soldiers at the training camps in the opinion of the commanding officers, is confined to missives from emotional sentimental women and girls and not all of the offenders against propriety are young women.

Little or no objection is made to clean wholesome letters devoid of sentimentality or reference to the personality of the writer and her wish to meet the soldier recipient of the letter.

The young women writers evidently do not know what the men do with the letters. "One of the favorite pastimes of the candidates, and one which provides them much amusement, is reading the letters they consider especially 'sort' to their comrades, and comparing them. Following are some of the types of letters:

"Dear Mr. —: I saw your name in a newspaper and picked it out because I liked it. We girls in this town are so lonesome, and I do want to be a real friend with some fine, big man who is a soldier. There aren't any soldiers here. I am 23 years old, five feet, four inches tall and a brunette, and my friends tell me I am, at least, not ugly. Are you married or engaged? I am not. If you are, or if you do not want to write to me, will you give this letter to some other man? I will send you my picture if you write to me.

Yours hopefully,

The letter was from a girl in a small Indiana town.

All of the letters, however, are not from Indiana girls. Many come from far distant states. How the names of the students become known to the writers has been more or less a mystery.

One letter received by one of the young men from an unknown writer recently read,

"I love manly soldiers. I just think they are grand. But we don't see many here. Maybe sometime I could come to Fort Harrison on a Sunday. I've been told I look like Z (naming a well known motion picture star) and I've got curls that come down around my shoulders. Are you tall? I like either blondes or brunettes. Do you? I am blonde.

"I have a girl chum that is writing to another fellow—maybe you know him. Wouldn't it be nice if we could all meet at Ft. Harrison some Sunday? Are you going with any girl steady? I am sending you a small picture of myself, but it's not very good of me. Please write to me right away, because I am so lonesome, and I want some soldier to think of me when he is fighting for his country."

Some of the letters are of different tone, and evidently are from girls of refinement and dignity. What the candidates call the "romance stuff" is lacking. One man at the camp has each week been receiving a letter and a pack of cigarettes, or some other little gift from a girl in Texas. After the first gift he wrote her telling her he did not wish the gifts. She replied:

"I am not sending them to you, Mr. —. I am sending them to one of Uncle Sam's soldiers. It gives me pleasure to do this, and I am sending similar packs to one man in each of the training camps. When the war is over, or when you, for any reason, take off your uniform, you will, in your own proper person, receive no more cigarettes from me."

In speaking to women who have asked him "what can we do for the soldiers," Gen. Glenn said, "My answer is,—here at home—let him alone. The American soldier when let alone, is the most peaceful and uncomplaining animal in the world. You don't think much of him in time of peace, but in time of war you fall over yourselves to do something for him—you don't know what it is, but it is pretty certain to be bad for him."

"I've got 11,000 of them out there at the camp—enlisted men and student officers, as well as 3,000 workmen. Please, please, don't send them things to eat—they have all they want. We are doing the very best we can for these boys, and we are going to give them, and your boys—the boys these student officers will command—a sporting chance, and that is all anybody can ask."

Gen. Glenn told the women that when the troops went abroad that was a different matter and then good reading matter, newspapers, books and magazines would be acceptable,

as well as small comforts the government does not provide.

Among these little comforts, Gen. Glenn suggested that the women might supply the soldiers, when they go abroad with needles, thread and thimble. "But I never learned to use one of those things myself," added the general, referring to thimbles.

Advice to trust the Y. M. C. A. and Red Cross in providing diversion for the soldiers also was given by General Glenn.

Our pendant ear rings in amethyst, topaz, sapphire, crystal, pearl and gold filagree will please you.

BRIEF NEWS NOTES OF BLUFFS AND VICINITY

Picnic Enjoyed By Sunday School Class—Mrs. Meats Will Visit in California.

Bluffs, July 18.—Mr. and Mrs. Earl Vantrees and sons, Howard and Charles of Moberly, spent a portion of last week with Mrs. Shaw and family.

Mrs. Wm. Claypool and Mrs. Philip Beil are visiting relatives in Springfield.

Mrs. Eugene Shore was a visitor in Denver Wednesday.

Wilmer McCullom who has been visiting his parents, Mr. and Mrs. Wm. McCullom, returned to St. Louis Wednesday.

Mrs. A. E. Zoller and son Thomas of Quincy are visiting relatives in town.

Mrs. John Kennedy is spending the week with relatives in Springfield.

Miss Uleta Shaw was a Springfield visitor Thursday.

Miss Winnifred Ashley entertained the pupils of her Sunday school class to a picnic at the Merriss Grove south of town Wednesday. The young people spent a very pleasant day and enjoyed the picnic dinner most of all.

Mrs. Charles Shaw was a caller in Jacksonville Wednesday.

Charley Willis purchased a handsome Chevrolet car in Jacksonville Wednesday.

Mrs. Gella Meats expects to leave Tuesday for a two month's visit in California. She also expects to visit the Hawaiian Islands.

The Rebekah and I. O. O. F. lodges gave an ice cream social Wednesday evening for the benefit of the Red Cross. The receipts were \$19.00.

DO YOU KNOW THAT—

The Artillery School of Instruction at Fortress Monroe was established in 1824.

The giving of cheers as a compliment to any officer is forbidden by the navy regulations.

All of the largest guns for the navy are manufactured at the gun factory in Washington, D. C.

Warships are said to be within signal distance when it is possible to make out flag signals.

The government pays no royalties on ordnance or other inventions made by officers of the army or navy.

The only corps of the navy consisting exclusively of Annapolis graduates is the Corps of Naval Constructors.

The flag of the secretary of the navy is of scarlet bunting and bears upon it an eagle with outstretched wings.

From 1792 to 1796 the regular army was known under the official title of the Legion of the United States.

Chaplains are on the same footing with other officers of the army as to tenure of office, retirement and pension.

Electric lights, Roman candles and rockets are among the common methods of night communication by warships at sea.

The oldest armored cruiser in the United States navy is the Saratoga, formerly the New York, which was launched 25 years ago.

The funeral of Admiral Farragut, who died at Portsmouth, N. H., in 1870, was the most elaborate ever given an officer of the United States Navy.

The wardrobe of an officer of the United States navy includes special full dress, full dress, evening dress, mess dress, and white and blue service dress uniforms.

The many retired officers of the United States army who have been recalled to active service in the present emergency receive the full pay and emoluments of their rank.

Major-generals of the United States army wear their sashes across the body from the right shoulder to the left side, while brigadier-generals wear their sashes around the waist.

When the president visits one of our warships it is required by the navy regulations that the drum give four ruffles and the bugle four flourishes, followed by the national air, played by the ship band.

The old frigate Constellation, now doing duty as naval training ship at Newport, is 120 years old. She was one of the six frigates laid down in 1794 as the first division of the United States navy.

One of the most notable cases of mutiny in the United States navy occurred just 75 years ago, when Midshipman Spencer, a relative of the secretary of the navy, along with a boatswain's mate and a seaman, was hung from the yardarm of the U. S. S. Somers, for suspected mutiny.

YOUNG WOMEN'S CONFERENCE

Blue Ridge, N. C., July 19.—Many young women, each with her full quota of bags and baggage, arrived at this resort today in anticipation of the opening of the annual Southern City Conference of the Young Women's Christian Association. Indications point to a full attendance of delegates representing the principal cities of North Carolina, Florida, Mississippi, Tennessee, Louisiana, Georgia and other States of the South. The conference will have its regular opening tomorrow and will continue in session through the remainder of the month.

Mrs. J. C. Swain of Sinclair was a shopper in the city yesterday.

PIONEER RESIDENT OF VIRGINIA HAS BIRTHDAY

William Watkins Celebrates 86th Anniversary of Birth — Runaway Results in Slight Damage—Arthur Cooper Ill at Norfolk, Va.—Other Notes.

Virginia, Ill., July 18.—Prof. O. W. Gould and family of Meredosia are the guests of his parents, Mr. and Mrs. S. A. Gould in this city.

Mrs. Florence Hall and Miss Ethel Sanks were Tuesday guests of Mrs. Robert Hall who is ill at a Springfield hospital.

Mr. and Mrs. Warren Watkins will depart for Rose Hill tomorrow where they have been summoned by the death of Mr. Watkins' aunt, Mrs. Minerva Gordley Lee, a former resident of Virginia. The funeral and burial will be in Rose Hill.

Warren Gordley who is ill at the Springfield hospital, is not as well today as he has previously been.

Wm. Watkins, a pioneer resident of this city, celebrated his 86th birthday at his home Wednesday, July 16. The day was pleasantly spent in the company of his children and other relatives. A sumptuous dinner was enjoyed by the following persons: Eliza Watkins and family of Peoria, Albert Watkins and wife of Sylvan, Warren Watkins and family of Philadelphia, Mrs. Albert Meyer and children of Peoria, Thomas Watkins of New London, Ia., Mrs. Belle Weber, Mrs. Henry Climer, Albert May and family of this city, Mrs. Riley Griffin of Chandlerville.

A brother, Thomas Watkins, of Chandlerville, who has arrived at the advanced age of 93, was unable to attend on account of illness. These gentlemen are probably the oldest brothers in Cass county.

Charles Ivey of this city received a call from the captain of the 7th regiment to report for duty July 24, at Chicago, Ill. He left today for Athens for a brief visit with his parents, Mr. and Mrs. Ed Ivey and will depart for Chicago in a few days.

A team of horses belonging to Charles Miller became frightened at the Hoffstetter & Carls lumber yard today and ran down East Main street a short distance striking a telephone pole, turning the wagon over and scattering the lumber in the street. Aside from tearing the harness up no damage was done.

Rev. C. F. Juvinal of the M. E. church, and family, are enjoying a two weeks' vacation at the home of Mr. Juvinal's parents near Potomac, Ill.

Joseph Stockton is spending a few days on his farm near Baylis, Ill.

Francis, the little son of Mr. and Mrs. Simeon Fernandes, former residents of this city, but at present located in Springfield, had quite a serious accident Monday. While riding a tricycle he fell from the wheel and in some manner the head of a nail penetrated his forehead and injured his eye. He is reported as getting along nicely at present.

Arthur Cooper, son of Mr. and Mrs. John Cooper of this city, who has been in the U. S. Marine service for some time as gunner on the battleship Seattle, contracted the black measles two months ago and later developing pneumonia. The young man sent a telegram to his parents Tuesday that he had arrived at Norfolk, Va., and would undergo an operation for mastoid abscess on that date.

CHANGE COMPLETE IN EVERY RESPECT

"My Wife's A New Woman
Since Taking Tanlac"

Allen Avers

"My wife's actually just like a new woman, since taking this medicine Tanlac," Sam Allen, prominent farmer, residing on rural route No. 1, Ashland, Ill., near here, told friends on June 15.

"For the past three years Mrs. Allen had suffered from nervousness and her system generally had become all run down," Mr. Allen continued. "She was so nervous it was impossible for her to sleep at night. She always felt tired and worn out, going about her work in a listless sort of way. None of the food she ate agreed with her or digested properly."

"Mrs. George Waunkal, a neighbor of ours, was receiving so much benefit from Tanlac that my wife finally decided to try the new medicine. Well, as I said, she's just like a new woman now, and it took only one bottle of Tanlac to cause the change, too. She thoroughly enjoys her meals now as the food agrees with her and she digests perfectly. Her nervousness has been greatly relieved and she sleeps much better at night now, getting up in the mornings feeling rested and ready for her work. Tanlac has done Mrs. Allen more good than any other medicine she has ever taken and I'm glad to recommend the new medicine to our friends."

Tanlac is now being introduced in Jacksonville at the Coover-Shreve Drug Co., East Side store, where a special Tanlac representative is explaining the new medicine to the public daily. Tanlac also may be obtained at the West Side store of the Coover-Shreve Co. It is sold in Waverly at the Wyle Drug Co.; in New Berlin at the New Berlin Drug Co.; in Ashland at H. O. Brownback's; in Versailles at A. G. Bates'; in Chapin at F. P. McKinney's; in Roodhouse at W. D. Berry's; in White Hall at the City Drug store; in Bluffs at F. T. Curtis'; and in Pittsfield at J. H. Barber & Co.; in Loami at L. N. Vandoren's; in Diverson at E. G. Haug's; in Manchester at C. D. Chapman's and in Winchester at the City drug store.

Hypoferrin

—is the Name

Mrs. Mollie Spangler

403 North Seventh Street, Allentown, Pa.

—is the Winner

Of the 79,537 names suggested for our New Wonder Tonic the Board of Judges has selected the word "HYPOFERRIN" as the most suitable. This name was suggested by Mrs. Mollie Spangler, 403 West 7th St., Allentown, Pa. and, upon authority of the Board of Judges, we have sent her the \$100.00 certified check.

We congratulate Mrs. Spangler upon her good fortune and thank all of you who participated in this contest.

Hypoferrin can now be had through your druggist. It is especially indicated for those troubled with weakness and nervousness in the various forms, for loss of appetite, insomnia, etc.

If you are affected with any of these ills, have your druggist send you a package of Hypoferrin—take it as directed. Our money-back-if-not-satisfied guarantee protects you against loss. \$1.00 per bottle—6 bottles for \$5.00. At your druggist or direct from us if he can not supply you. The list of ingredients is plainly printed on every package of Hypoferrin. Ask your druggist or physician his opinion.

Women Love Babies

It is woman's nature to naturally respond to the charm of a pretty child. Who does not admire babies? The longing to possess a baby is often outweighed by the inherent fear of the period of distress. There is a most wonderful external preparation known as "Mother's Friend". It is a safe external massage which relieves pain and discomfort at the crisis; makes elastic those fibers and muscles which nature is expanding, and wonderfully soothes the inflammation of breast glands. It enables the expectant mother to preserve her health and strength, and she remains a pretty mother by having avoided the suffering and danger which would otherwise accompany such an occasion. Every nerve, muscle and tendon is thoroughly lubricated. Get a bottle today from the druggist, and write to the Bradford Regulator Co., Dept. G, 200 Lamar Building, Atlanta, Ga. They will mail you an intensely interesting little book, "Motherhood and the Baby". The book is free. Every woman should herself aid nature in her glorious work. "Mother's Friend" makes it possible for you to do so and should be used regularly without fail night and morning.

Women! It's Cheap! Use Lemon Juice and Make Lotion

To keep your skin and complexion naturally soft, white and clear at all times you simply must use a lotion or cream every day. But choose the one that is best and costs the least. The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable beauty lotion at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener and beautifier.

Just try this lotion! Make up a quart pint of this sweetly fragrant cream and massage it into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen, and bring out the hidden roses and beauty of any skin. Your druggist will sell three ounces of orchard white at little cost and any grocer will supply the lemons.—Adv.

A TREATMENT FOR NERVES

Woman Tells How Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCEBAUGH, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound. This famous remedy, the medicinal ingredients of which are derived from choice roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

FARM NOTES

The Soy Bean Demonstrations
I have been over some of the soy bean fields lately and they are doing splendidly. Different members have soy beans planted under different sorts of conditions which will indicate in the fall the adaptation of the crop to Tazewell county agriculture. (We will have meetings at that time at the different fields to see the results.)

How It Pays

About a month ago, I saw one of the members in Delavan and he said he needed some 90-day corn. That afternoon I met one of the Spring Lake Farm Bureau members at Mackinaw and he told me where 90-day corn could be bought, just a few miles from the man who had wanted it. That night I got word to the first party by telephone so he got the information he wanted in rather a round-about but quick way. A good many instances turn out just like that. The fact that 500 farmers, scattered over Tazewell County are each on the alert for anything that is worth while, and are banded together to help each other in any way that they can, is a great benefit to every member.

Thru this means, many instances of significant success of various farm enterprises come to notice. The typewritten letters sent out to each member twice a month carry the news of the things which others have worked out in different parts of the county. Methods of handling crops and live stock which are an improvement over old ways are thus spread to all who are interested.

Splendid Alfalfa Fields

Another splendid alfalfa field came to notice the other day when I stopped at the farm of Thomas Viemont, south of Mackinaw. This is a 7-acre field where he made a quick, complete and very successful transformation from timothy pasture to alfalfa. Last year in the fall, the field was timothy on which the stock were grazing. Now it is alfalfa and will soon be ready to cut a splendid crop of hay with very few weeds in it. When Mr. Viemont made up his mind to sow alfalfa, he decided to observe the precautions which have been thoroughly worked out as desirable in order to give it the very best of a start. His success is proof that these methods are correct.

Richmond Robison in Boynton township has 20 acres of alfalfa, which is very fine and vigorous, right on the same field where alfalfa failed when a chance had been taken before with only a partial preparation for insuring a crop.

Lawrence J. Kern of Washington has another nice field of alfalfa which had to be patched up this spring, because of the damage done by grasshoppers but he observed the essential principles on which success with alfalfa absolutely depends.

Illinois Agricultural Association

The new laws passed by the legislature which recently adjourned, show the good work by the Farm Bureaus of Illinois thru their state organization, known as the Illinois Agricultural Association. Perhaps the tax-collectors' law which will eliminate most of the tax-collectors in Illinois and save thousands of dollars of taxes in different counties is the one which appeals to everyone most forcibly. The organized Farm Bureaus got behind this bill unitedly and created a sentiment in its favor which could not be put down. In this way alone, the Farm Bureaus have saved much more than the money they are costing.

The new seed law is designed to prevent Illinois from continuing to be a dumping ground for bad and weedy seeds from other states. The county advisers' law will help in organizing Farm Bureaus in other counties in the state, as well as to strengthen the work of Farm Bureaus already in operation.

The new stallion licensing and lien laws are thought to be the best of their kind that have been passed by any state. They will help the horse business without imposing objectionable restrictions on honest horsemen.

All of these laws were backed up by the Illinois Agricultural Association of County Farm Bureaus. The governor, senators, and representatives, expressed themselves as much impressed and highly pleased with the way the merits of these bills were presented to them by J. W. Kirkton of Gridley, Chairman of the Legislative Committee, and the other members of the Association who necessarily went to Springfield from time to time to help with the work.

E. T. Robbins,

Tazewell County Agricultural Agent.

The Hog Scarcity

The events of the past nine months seem, according to Wallace's Farmer, to indicate that we are steadily moving toward a period of great scarcity of hog meat. Beginning with October, 1916, the Chicago market has received, in pounds of live hog flesh, the following percentages of the ten-year average, month by month: October, 138 per cent; November, 147; December, 125; January, 127; February, 107; March, 93; April, 105; May, 98; and June, 87 per cent. Adjusting the matter as to population, taking into account the fact that we have now about 110 per cent as many people as we have had an average of the past ten years, we find that during the past nine months there have been received in Chicago the following per cent in pounds of live hog flesh per capita: October, 127 per cent; November, 135; December, 115; January, 116; February, 92; March, 85; April, 96; May, 89; and June, 79 per cent. In the month of June, our leading hog market received only 79 per cent of its normal supply for that month. This is a terrific shortage, and even

ANNUAL CLEAN-UP OF LOW CUTS

Sale Commences Friday, July 20

It seems unreasonable to quote cut prices on footwear in the face of such tremendous advances in leather and other materials entering into the construction of footwear. A short season and the uncertainty of styles forces us to keep low shoes on the move so we quote clearing prices to clean up.

BUY FLOUR IN SMALL QUANTITIES

Housewives Warned that Attempt to Hoard and Store Often is False Economy.

Washington, July 19.—Buy flour in small quantities and protect it carefully from spoilage, is the keynote of a suggestion from the United States Department of Agriculture. Sound flour milled from standard wheat exhibits very little tendency to decompose when stored in a proper manner. Nevertheless, there is considerable loss of flour thru spoilage as a result of improper storage, particularly during the summer months. Flour dealers naturally have to carry in storage an amount of flour proportionate to the current needs of their trade. Housekeepers on the farm and in the city should purchase flour in accordance with their needs only. It is false economy for the housekeeper to purchase larger amounts of flour than can be used within a reasonable length of time. This may be a barrel for a large family; more often it will be the 50-pound sack. Any storage of flour in excess of the consumer's needs constitutes hoarding which, under present circumstances, is an unethical and reprehensible practice, of no profit to the individual who practices it, but injurious to the best interests of the people.

Keep Down Waste.

Since it is the duty of everyone in the present situation particularly to avoid all waste, it is incumbent upon each one to store the normal stock of flour as to eliminate all waste whatsoever. The precautions that are required have been well worked out in practice and are stated as follows by specialists in the Department of Agriculture.

There are three cardinal principles of flour storage. Flour should not be stored in the cellar, since the cellar is rarely free from dampness, even the special flour bins have been built in. It is common to find odors in a cellar and flour absorbs odors and is contaminated by them. The cellar is cool, but is usually too damp. Flour should not be stored in the attic of the usual type. The temperature is too high in summer, there is no circulation of air, and the flour is likely to acquire a musty odor. Flour should not be stored in the pantry or kitchen except in small quantities since the temperature is certain to be uneven and the flour is likely to be contaminated by odors.

A Storage Room.

If practicable every household should possess a small room for storage of non-odoriferous commodities. Such a room is best located on the north side of the building. It should be ventilated and a cool and even temperature should be maintained. Where such a room is not available a closet may fit the requirements well. The bins or containers should be kept clean, and when an old stock of flour is exhausted, the container should be carefully cleaned before a new stock is placed.

Naturally the flour must be guarded from vermin. Flour should be examined occasionally to see that decomposition has not begun. Conserved in this manner, the sack of

flour in the household and the larger stores of the retailer can be utilized practically to the exclusion of any waste thru spoilage.

HOBBS SELLING COURT PLASTER IS ARRESTED

Story That Man Was a German Agent Caused Excitement—Police Found No Incriminating Evidence

There was considerable excitement created in the city Thursday morning when it was reported that a stranger was selling court plaster in the west end of town. The police were notified and took the man in charge and took him to the police station. Here it was found that he had several packages of court plaster.

The police were of the opinion that the man was just an ordinary hobo. Travelers of his class have been in the habit for several years of trying to sell court plaster at about three times the original price. He was taken to the railway station and shipped out of town.

There have been reports from various parts of the country the last week of German agents attempting to sell court plaster inoculated with arsenic and other deadly germs. This started a report that this was one of the Kaiser's agents and there was a great deal of concern expressed as to whether anyone had purchased any of the court plaster from the vender.

COMMISSIONER OF DYES NAMED
London, July.—So important has the dye industry become, that the creation of a special department under the board of trade is necessary. This will be managed by Sir Evan Jones with the title of commissioner for dyes who will act in close consultation with the various dye-making and using interests to promote and develop the industry.

GRAINS EXPERIENCE
NOTABLE UPTURN

Wheat Closes Firm at a Net Advance
of 4 to 14 Cents—Corn Finishes
Unchanged to 1 1/4 Cents Higher
and Oats Gain 1/2 to 1 1/2 Cents

Chicago, July 19.—Anxiety over the
near approach of the last delivery day
on July contracts and in regard to scar-
city of supplies with which obligations
of sellers could be fulfilled, resulted
about notable upturns today in prices
for wheat, corn and oats. Wheat closed
firm at a net advance of 4 to 14c. Corn
finished unchanged to 1 1/4c higher and
oats gained 1/2 to 1 1/2c. In provisions
the outlook carried from unchanged fig-
ures to 17c decline.

Assertions that owing to excessively
dry weather North Dakota would not
yield more than half a crop this season
did much to worry wheat shorts. July
options were bid up till they went 3c
above yesterday's close and 1 1/2c up since
yesterday.

Corn came within 2 1/2c of the maximum
limit allowed under the board of trade
wheat emergency rules. Shortness of ar-
rivals and rural offerings were the domi-
nant factors but moderate reaction
followed price talk.

Unfavorable crop reports from Canada
and North Dakota advanced oats liqui-
dating sales. Holders of hard and weak-
ened provisions.

GOING TO BUILD?

Let Me Submit An Estimate on Entire Job

I will develop your own ideas into a practical

SET OF PLANS AND SPECIFICATIONS (Blue Prints)

Execute them to the smallest detail into a building that can be built within your means and to your entire satisfaction.

A HARD WOOD FLOOR is the foundation of things beautiful.

I will cover those old floors with quartered oak flooring, cheaper than you can carpet them.

No job too large nor too small for my prompt attention.

E. J. DUPREE

Contractor

FIFTY DOLLARS REWARD PAYABLE IN GOLD

To the first man or woman who brings me a buyer to whom I make a sale of my home.

House contains nine rooms besides bath, pantry, toilet on both first and second floors, electric lights, gas, city water, well and cistern within the kitchen, furnace, large attic, floored, all in good condition. Lot 90x180 with good barn, chicken sheds, garden and grass plat.

Situated four blocks from the square, convenient to schools, churches and railroads. I will also sell furniture at attractive prices.

I offer my exceptionally desirable building lot, corner of College Ave. and Prospect St., with east and south front, water and sewer connections already made.

JOHN N. WARD

BUY YOUR COAL NOW

IF YOU WANT TO SAVE MONEY

The mines have advanced prices and we are now quoting the following:

Springfield Lump and Nut Per Ton \$5.00

Cartersville Lump and Nut Per Ton \$5.75

Some good quality sawed wood in stock. We believe early fuel buying this year will save money for the consumer.

Story's Exchange, Real Estate, Loans and Insurance.

CITY PROPERTY

(A) We are pleased to offer this choice residence only a few blocks from the square on West State street.

The house is comparatively new and in first class condition. There are nine rooms with oak floors downstairs, hard pine up stairs and tile floor in the bath room. This home is fully equipped with all modern conveniences and is a most desirable property. It has been leased for five years at \$40 per month. Can give possession August first. Can be had now for less money than would be required to buy a lot and build a six room cottage. See us today.

No. 733. On Hooker street we have a four room cottage built on a lot 66x165 feet, for \$650. Will take good second hand car and carry the balance in notes.

FARM PROPERTY

(A) Prospective farm buyers should be out early these days and should buy soon so they may take their profit yet this fall and buy again. Really, the banks will have to work overtime to count the money that our crops and stock are going to bring in to the country. Think of it. Millions more of money but never another acre of land. If you will go right now a forty minutes drive in the car with me I can sell you a high grade farm of 180 acres for \$185 and turn you the grain and cash rental on 40 acres of wheat, 40 acres of oats, 60 acres of corn, 40 acres of grass. Within two and a half miles of three elevators and a good town, but you must go now.

(B) I can show you a fine farm of 290 acres all fine farming land with about 10 acres where the buildings are and a 20 minutes' drive from Jacksonville. The buildings are fine, house, horse barn, cow shed, silo, hot house, machine shed and all things needful. This can be had for \$190 and is a real bargain.

Now don't wait until November for these best bargains will be taken long before that and you will be compelled to take the cull farms at higher price. Phone me and give me three hours of your time. It means much to you.

MONEY

Place your order early for the money you need for the demand is going to be great.

STORAGE OF POTATOES PRESENTS PROBLEMS

Use of Pits, Dugouts and Masonry Storage Houses for Holding the Main Crop of Potatoes Discussed by the U. S. Department of Agriculture.

Washington, D. C., July 14.—The storage of potatoes of the main crop can be accomplished most satisfactorily thruout much of the United States in the dugout pit or potato cellar in some of its various forms of construction, says a recently published Farmers' bulletin of the United States Department of Agriculture, "Potato Storage and Storage Houses." In general, the bulletin says, no attempt is made to store potatoes of the early crop, since usually they are sold for immediate consumption.

While the dugout storage house is in most general use, concrete or masonry houses with frame superstructures are, perhaps, most satisfactory in cold climates. In some sections, especially in the South where drainage is poor, insulated frame structures built entirely above ground must be depended upon.

The primary purposes of storage, it is pointed out, are to protect the tubers from extremes of heat and cold and from light. Account also must be taken of conditions of humidity and ventilation and of the size of the storage pile.

The temperature should be the highest at which potatoes can be maintained firm and ungerminated, and which will at the same time hold fungous diseases in check. Experiments of the department with artificially refrigerated storage indicate that 36 degrees F. is sufficiently low for all practical purposes and that in the earlier portion of the storage season a temperature of 40 degree F. is just as satisfactory as a lower one except where powdery dry rot infection occurs.

All natural light should be excluded from potato storage houses because when the tubers are exposed to even modified light, they are soon injured for food purposes. A practical rule in regard to humidity, the bulletin already mentioned says, is to maintain sufficient moisture in the air to prevent the wilting of the tubers and at the same time to keep the humidity content low enough to prevent the deposit of moisture on surface of the tubers.

If potatoes are piled in too large piles they may become over-heated and deteriorate. Six feet is a good maximum depth to which to pile tubers in bins, and the area covered by each pile also should be limited. A good plan is to insert ventilated division walls at intervals thru the pile or bin. These may be made by nailing relatively narrow boards on both sides of 2 x 4 uprights, 1 inch spaces being left between the boards. General ventilation for the whole storage house usually is accomplished thru ventilating shafts in the roof.

Methods of Storage.

The possible ways to store potatoes, says the bulletin, are pits or earth covered piles, in dugout pits or potato storage cellars, in insulated wooden structure, in substantial masonry or concrete houses, and in the artificially refrigerated storage houses. The latter two methods are the most expensive. Pitting is the most primitive method of storage, but if properly done on well-drained locations is satisfactory in so far as the preservation of the potatoes is concerned. The chief drawback to pitting is that the potatoes are not

always easily accessible in the winter.

Potato Storage Cellars.

The dugout pit or potato storage cellar is probably more widely used than any other type of storage space. Fitted with water-tight roof it is especially popular in the central portions of the United States. In the arid and semi-arid sections a type with sod or dirt roof is in most general use. As a rule, the excavation for the cheaper structures of the dugout pit or cellar type when erected on level or nearly level land does not exceed 3 feet. The soil removed from such an excavation, particularly if the dugout is of any considerable size, is ample for banking the side and end walls and also for the roof. The cost of construction may be greatly modified, according to the character of the location.

In the cheaper dugouts, where the soil is of such a nature as to remain intact it is allowed to form the side and end walls, the roof being supported on plates resting on the soil and held together by boards or joists. This form of construction involves a deeper excavation and a constant element of risk from a cave-in. In the more expensive and substantial structures the side and end walls are built of concrete.

Insulated Frame Structures.

Insulated frame potato storage houses are not used very extensively. As a rule they are better adapted to southern than to northern climatic conditions. The construction feature of such houses in the thoro insulation of their walls, ceiling, doors and windows. This type of storage house is not to be recommended for northern locations, nor is it advocated for the South except where poor drainage conditions will not permit the use of the dugout or cellar style of house. It is not recommended, because it can not be so economically constructed, nor does it furnish as good a type of storage as the properly ventilated cellar storage house.

The Arrostook Type of Storage House

The Arrostook type of storage house with concrete or masonry basement walls and wooden superstructure, seems to be distinctively a product of Maine, and so far as has been observed is not found to any extent outside of the State. It is an extensively constructed house and is almost always located on a sidehill or knoll in order that advantage may be taken of a ground-level entrance. That such houses have proved satisfactory to the potato grower in Maine is evident from the fact that practically no other style of potato storage house is in use in that State.

The Artificially Refrigerated Storage House.

The artificially refrigerated potato storage house is as yet hardly in existence. The present use of this type of storage house is confined practically to the holding of northern grown seed potatoes in cold storage for second-crop planting in the south.

WOMAN'S LEAGUE AIDED WITH RECRUITING

Members at Quincy Gave Demonstration in Practical Aid.

Chicago, July 19.—Members of the Woman's Emergency League in Quincy offered their services in the recruiting campaign of the National Guard, and secured a large number of volunteers for the military company by a systematic canvass of the city. Officers commanding in this district give unstinted praise to the efficient work of the teams appointed by Mrs. Maida L. Fosgate of the Emergency League.

A most encouraging development in the work of the League announced at a recent headquarters this week in the enlistment up to "full war strength" of the first of the 60 divisions composing the force which will battle in behalf of a new constitution. The division commanded by Mrs. Mary Aleshire of Plymouth, and recruited from the district including Macomb, Quincy and Carthage, now includes 1120 members, its full quota. Several other divisions have made rapid progress toward this goal and will complete their enrollment soon.

During the coming week conferences are scheduled at Bloomington and at Elgin or Aurora. Divisions whose officers will assemble at the northeastern district meeting are those commanded by Mrs. J. H. Bliss of Aurora, Mrs. Eugene Health of Elgin and Mrs. Frank Johnson of Glen Ellyn. Mrs. Mary C. Bourland of Pontiac, commanding a division in the Fifth corps, has enlisted many of the ablest women of her district, and is co-operating with Executive Adjutant Mrs. E. B. Coolley of Danville and Mrs. Frank H. Quirk of Bloomington in the organization of the eastern Illinois counties.

CANADIAN HIGHLANDERS WILL VISIT CHICAGO

Foreign Soldiers Will Parade Chicago Streets the Coming Week to Round Up British Subjects

Chicago, July 19.—Next week foreign soldiers under a foreign flag will parade Chicago streets. It will be the first time (since the World's Fair at least, when a few men in the uniforms of other nations were about) that such a thing ever happened. But as United States troops, the Illinois National Guard, and the sailor boys from the Great Lakes Training Station will march with, not against, the foreigners, Chicago is not worrying over the "invasion."

The foreigners who are coming are the Kilites of Canada—a whole battalion of them. They will bring a band, and they will parade daily and give concerts each night. They are coming to get recruits for the British army—British citizens who are resident in Chicago and have not yet had brought home to them the duty of joining the colors of their own country.

British recruiting has been going on in Chicago for the past ten days, but there is to be a grand drive all of next week to round up the last

eligible and able man. It is to be an American-British drive, in fact, for Major F. R. Kenney of the United States Recruiting service is in on the arrangement, fifty-fifty, with the Canadian officers.

The Canadian Highlanders will arrive Monday and will be met by detachments of American troops and Naval Station boys, the latter bringing their big band along. The great day of the week, however, will be Thursday, when there will be a grand parade, including about 5,000 of the men who are now National Guardsmen, but who will be sworn in as national troops next Wednesday. That night there will be a mass meeting at the Coliseum, at which Lord Northcliffe is expected to speak.

The Americans and Canadians expect to make the whole "hands-across-the-border week" a gala one, for in addition to parades and band concerts, Miss Ruth Law, the famous aviatrix, will be doing day and night stunts in her airplane to encourage enlistment.

RED CROSS MEETING

AT WOODSON

Attention is again called to the Red Cross meeting to be held at Woodson this evening. The purpose is to organize a Red Cross branch. The assemblage will be in the tent, which has just been erected in preparation for a coming revival meeting. E. E. Crabtree, Rev. W. E. Spoons, Miss Louise Capps, Ralph J. Dunlap and Albert Metcalf will be among the Jacksonville people who will attend and make explanations about the Red Cross work. Rev. J. Latham, chairman.

WHY SUFFER SO

Why suffer from a bad back, from sharp, shooting twinges, headaches, lizziness and distressing urinary ills? Jacksonville people recommend Doan's Kidney Pills. Could you ask for stronger proof of merit?

Mrs. Katherine Osterholt, 333 W. North St., Jacksonville, says: "My rest at night was badly broken on account of severe pains in my back. I actually could not get into a position where I could lie in comfort. The kidney secretions were unnatural and I had such bad headaches that little specks seemed to float before my eyes. I used several boxes of Doan's Kidney Pills and they cured me of the trouble. The cure has been permanent, as I have never had any return of it."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mrs. Osterholt. Foster-Milburn Co., Props. Buffalo, N. Y.—Adv.

MR. AUTO OWNER!

Why throw your old auto tires away when they are good for 2500 to 6500 more miles.

My method of taking two old tires and making one good one is saving thousands of auto owners from 50 to 75 per cent on their bills.

Send me two old tires and I will make one good tire that you can get from 2500 to 6500 more miles out of. In sending me tires be sure one has a good rim no matter how bad the tread is worn. For the other one that has a good tread no matter what condition rim is in.

If You Haven't a Tire with a Good Tread I Can Furnish You One

PRICES FOR DOUBLE TREADING

SIZE	When you furnish both tires	When You Furnish one tire	SIZE	When you furnish both tires	When You Furnish one tire
30 x 3	\$2.25	\$4.00	35 x 4	\$3.25	\$6.25
30 x 3 1/2	2.50	4.25	36 x 4	3.50	6.50
31 x 3 1/2	2.50	4.50	34 x 4 1/2	3.50	6.50
32 x 3 1/2	2.75	4.75	35 x 4 1/2	3.75	7.00
34 x 3 1/2	3.00	5.25	36 x 4 1/2	3.75	7.00
32 x 4	3.00	5.50	37 x 4 1/2	4.00	7.50
33 x 4	3.00	5.50	37 x 5	4.00	8.00
34 x 4	3.25	6.00			

Where a tire is blown out an additional charge of 50 cents is made. Patches necessary in a tire, an added charge of 35 cents for each 10 inch patch.

Tires sent to me should be prepaid as I pay no transportation charges either way.
